BUYING GUIDE

Window treatments

Different types of curtain arrangements serve both a functional and a visual purpose in your home. Visually they can enhance your style or change a room's proportions. Functionally, curtains and blinds block light, create privacy and absorb sound. They can also help to make your home cool or warm. Curtains and blinds also provide shade which protects furniture and creates a comfortable temperature for plants and animals. With layers of different types of curtains, you can transform your window into a cozy and constantly changing view. It's beauty with practical features. Let these solutions guide you to the everyday escape you want.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting IKEA-USA.com. For more detailed product information, see the price tag or visit IKEA-USA.com.
All products shown require assembly. All textiles shown are imported.

GOOD TO KNOW

When it comes to windows, one size does not fit all. Windows are built in different ways, and we all have different needs regarding curtains — whether your needs are privacy, light control, noise reduction, or just creating a beautiful window. Part of the secret to creating a functional window using several layers is to measure your window properly.

1. Measure the width of window

This determines the width of the curtain rod or track rail needed.

a. Measure the width of your window from edge to edge of the wood frame.

b. Add at least 6" for each side of the window.

c. Ensuring maximum width for the curtain rod allows the curtains to be pulled fully to the side when opened.

2. Measure the height of windown

This determines the length of your curtains.

a. Measure from the top of the window frame and stop where you want the curtains to end.

b. Adding 6" to the upper measurement gives space for your curtain rod or track rail.

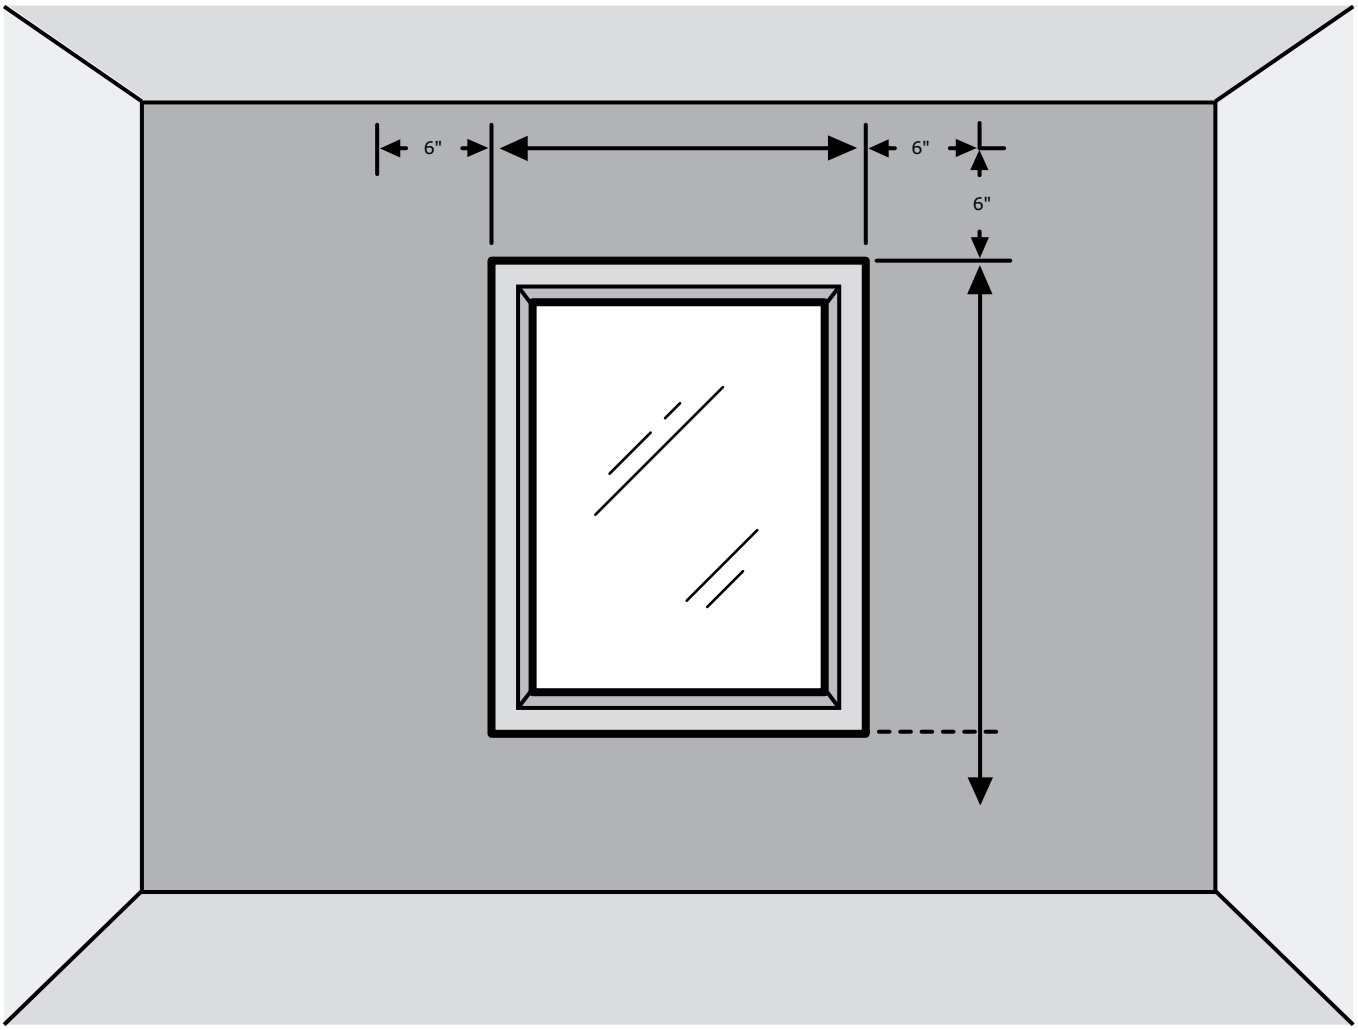

c. Hanging the curtains from ceiling to floor will create a visual appearance that the room is larger.

3. How many panels do I need?

To create a full window solution, the right number of panels are needed.

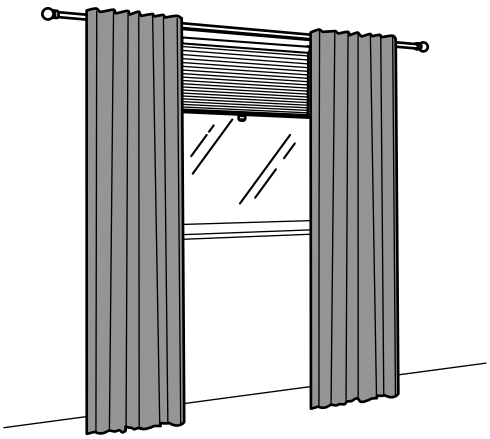

a. Multiple the curtain rod width by 2, or for a fuller look by 2.5.

b. Divide that number by the panel width to determine the number of panels needed.

PRIVACY

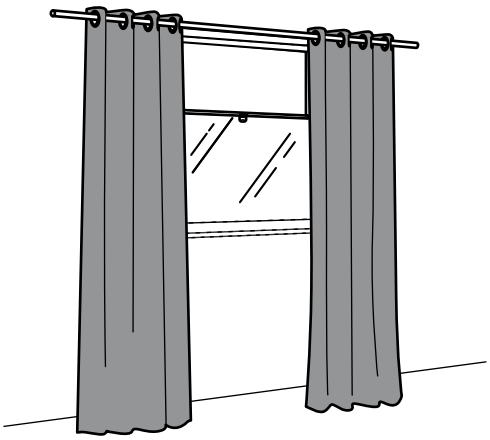

We love to see what's outside, but sometimes we want to shut out things like sunlight and curious eyes. With curtains and blinds you don't have to choose. They allow you to filter the light, create privacy and reduce the glare on television and computer screens — while allowing you to enhance your style.

- The blind lowers the general light level and provides privacy by preventing people outside from seeing directly into the room.
- The honeycomb structure inside creates a layer of insulation which helps reduce heating costs.

Parts used in this example

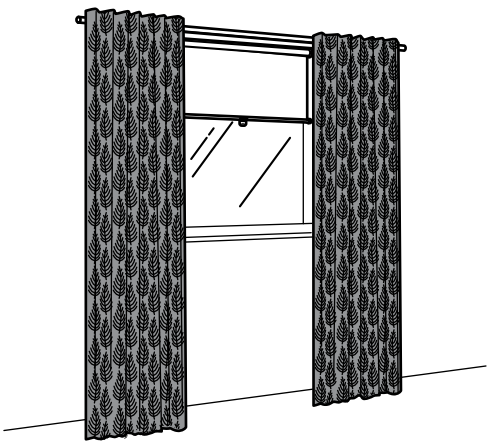

BEKRAFTA Curtain rod set, 47¼-82¾", Black	304.896.83	1 pc
HOPPVALS Cellular blind, 34×64", Gray	803.864.42	1 pc
TIBAST Curtains, 1-pair, 57×98", Green	105.045.90	1 pc

- The grommets allows you to hang the curtains directly on a curtain rod for easy gliding.
- The blinds filter light and reduce reflections on TV and computer screens.
- The length of the curtain rod is adjustable.

SLEEP

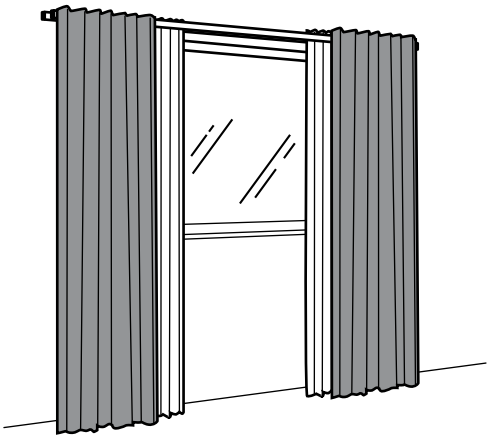

We sleep one third of our lives, and a good night's sleep is important for us to feel well and rested. To make your choice easier, we've gathered these combinations which can help you to reduce noise, block light and create a snug place to sleep.

- The densely woven curtains darken the room and provide privacy by preventing people outside from seeing into the room.
- May help you reduce heating costs as the air inside the honeycomb structure creates a layer of insulation.
- The rail can be cut to the desired length with a hacksaw.
- The ceiling fitting mounts VIDGA track rail to the ceiling with no visible screws. *VIDGA ceiling mounting hardware is included in the rail track packaging.*

Parts used in this example

VIDGA Single track rail (includes ceiling mount hardware), 55", White	204.929.16	1 pc
VIDGA Glider with hook, White	204.830.02	1 pk

MULTIFUNCTIONAL

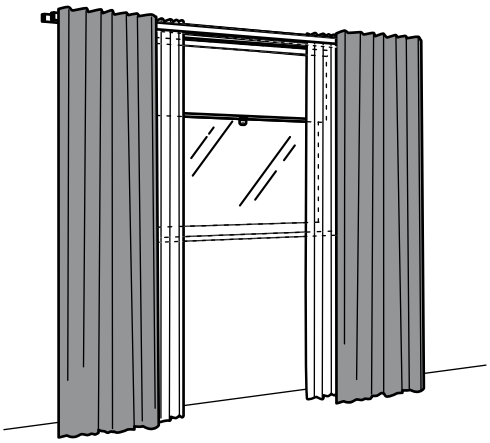

During the day, the light changes and also the needs we have regarding our windows. With these solutions, you can block light or let it in, keep your room warm or cool, stop reflections on screens, get both privacy and a view or just make your room more cozy. The different layers of textiles also provide you with insulation against the cold of winter and the heat of summer.

- With blackout curtains your sleep won't be disturbed by moonlight and street lights — or be woken by the sun when you want to sleep in late.
- The curtains can be used on a curtain rod or a curtain track.

Parts used in this example

HUGAD Curtain rod, 47-83", Black	302.171.35	2 pcs
BETYDLIG Wall/ceiling bracket, Black	602.172.28	2 pc
BETYDLIG Curtain rod holder, Black	502.198.93	2 pcs

VIDGA

VIDGA is the foundation of our range for windows and a good starting point for working with layered solutions that meet your needs and dreams. It's easy to install and has clean lines that fit both modern and traditional window solutions.

Explore all the possibilities when it comes to hanging your curtains with VIDGA curtain systems. Easy to install and use.

Single-layer

1. One VIDGA single track rail 55" mounted to the ceiling. The curtains are attached using VIDGA glider and hooks.

Parts used in this example

VIDGA Single track rail (includes ceiling mount hardware), 55"	204.929.16	1 pc
VIDGA Glider/hooks, 24pk	204.830.02	1 pk

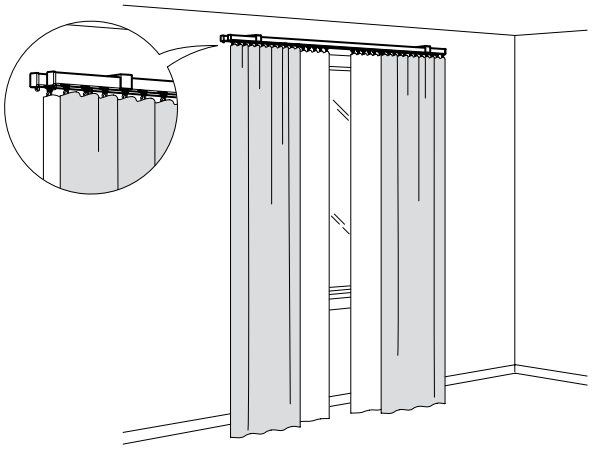

If you'd like to **double the width of the combination***, follow the shopping list below:

VIDGA Single track rail (includes ceiling mount hardware), 55"	204.929.16	2 pcs
VIDGA Glider/hooks, 24pk	204.830.02	2 pks

You can switch to short 2¼" or long 4¾" wall brackets for a wall-mounted solution. Wall brackets sold separately.

Double-layer

2. Create a double-layered solution using two VIDGA single track rails, 55" each, mounted to the wall parallel to each other, using the 4¾" deep wall brackets. By using two layers of curtains, you will have privacy day and night — close the sheer curtains in the day and the outer curtains for the night.

Parts used in this example

VIDGA Wall bracket, 4¾"	702.991.48	2 pcs
VIDGA Single track rail, 55"	204.929.16	2 pcs
VIDGA Glider/hooks, 24pk	204.830.02	2 pks

If you'd like to **double the width of the combination***, follow the shopping list below:

VIDGA Wall bracket, 4¾"	702.991.48	3 pcs
VIDGA Single track rail, 55"	204.929.16	4 pcs
VIDGA Glider/hooks, 24pk	204.830.02	4 pks

VIDGA

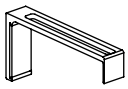

VIDGA track rails come packaged with ceiling mounting hardware. Wall brackets are optional and sold separately.

ALL THE PARTS

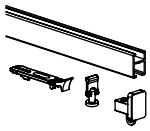

VIDGA Wall bracket White. The shorter, 2¼" deep wall fitting brings curtains closer to the wall to help block out light and allow a good night's sleep. Good when using one layer window solutions.

One wall fixture, depth 2¼".	102.991.51

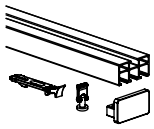

VIDGA Wall bracket White. The longer, 4¾" deep wall bracket is perfect for multi-layered window solutions using multiple parallel VIDGA rails.

One wall fixture, depth 4¾".	702.991.48

VIDGA Single track rail including ceiling mount hardware White. Single track works well with curtains, especially when using multiple layer curtain solutions. The 4¾" depth can accommodate the fullness of fabrics for easy movement opening and closing.

L55".	204.929.16

VIDGA Triple track rail including ceiling mount hardware White. Triple track rail works best when using curtain panels, as the panels are very close together in depth. Don't forget the VIDGA Panel holders! One package per panel is required.

L55".	704.928.86

VIDGA Corner piece, single track White. Makes it possible for curtains to go around corners. By finishing each end of the rail with corners, curtains can keep the light out on the sides. The rail can be mounted to the wall or ceiling using appropriate fittings. The ceiling fittings are included, wall fittings are sold separately.

One wall fixture, 4¾"	304.983.81

VIDGA Gliders with hooks For easy hanging of curtains with VIDGA curtain hanging system. Makes it super easy to move and arrange your curtains. Suitable for curtains with gathering tape. One package is enough for two curtain panels. If you want the pleated look, add RIKTIG Curtain hooks, sold separately.

White	204.830.02	**24pk**

RIKTIG Curtain hooks Alternative hook that can be used with VIDGA gliders on VIDGA curtain hanging system. Makes a pleating effect while smoothly moving and arranging your curtains. Suitable for curtains with gathering tape. One package is enough for two curtain panels.

White	402.122.03	**20pk**

VIDGA Panel curtain holders White. One package per panel is required. These holders makes it a little less of a struggle to hang panel curtains, so you can easily change them as often as you like to give the room a fresh new look. To be used with VIDGA track rail.

W23½".	504.830.05	**2pk**

Nickel plated	804.897.89	**10pk**
Brass-color	104.952.08	**10pk**

SAFETY

How safe are your windows?
The truth is that the area around your window can be a threat, especially for young children. Did you know that blinds and curtains with hanging strings are actually a strangulation risk for children?

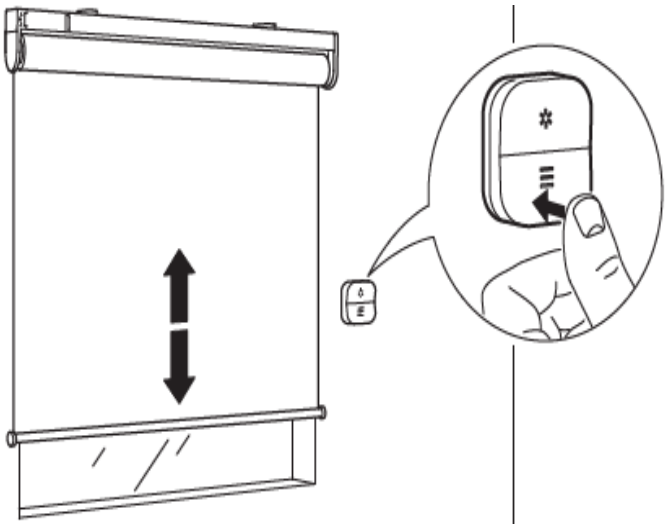

For us, children are the most important people in the world, so we work hard to make homes safer. For us, it's not enough to minimize the risk. We want to remove it completely. So we decided to change our range of blinds and curtains by developing alternative solutions that completely eliminate the risk of strangulation.

To prevent children from getting stuck in loose strings, we've removed the drawstring from all of our blinds. They are still easy to roll up and pull down — just grab the plastic tab in the middle and pull. For high windows, you easily complete with RIKTIG draw rod. The blinds can be adjusted to any height.

And our curtains have no drawstring, which means children stay safe around them.

WIRELESS MOTORIZED BLINDS

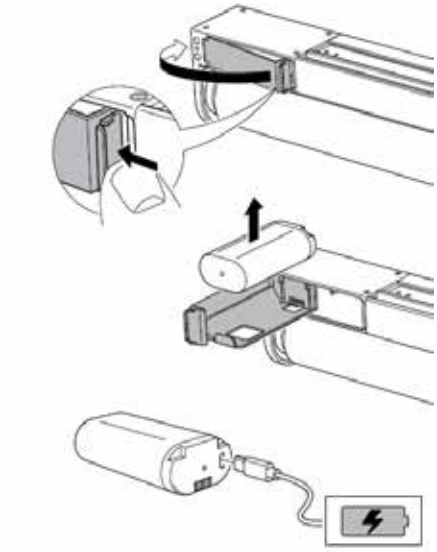

With our FYRTUR & PRAKTLYSING blinds, you can control the light from your bed, or somewhere else. Thanks to the included remote control or the IKEA Smart home app, several wireless blinds can be controlled at the same time or individually.

- You can control your blinds wirelessly to adapt to the light or create privacy depending on the activity taking place in the room.
- FYRTUR blocks light from shining through, and completely darkens your room.
- RAKTLYSING cellular blind filters light and insulates against window drafts and heat from the sun.
- You can use DIRIGERA hub and IKEA Home smart app to:
  -Create several groups of wireless blinds and control them in different ways.
  -Set your wireless blinds to go up and down with a timer.

Parts used in this example

FYRTUR Blackout roller blind, wireless/ battery operated, 30×76¾"	904.174.62

- Remote control included.
- One rechargeable battery included.
- Battery charger included.
- For the blinds wireless functions to work, the zigbee repeater (included in the package) needs to be plugged in to a power socket within 32 feet of the blind.
- The blind comes pre-paired with the remote control and the zigbee repeater.
- You need the DIRIGERA hub to use the IKEA Home smart app, available for free download via Google Play or App Store, depending on which mobile device you have.
- We continuously update the IKEA Home smart app with more functions and possibilities.

ADDITIONAL OPTIONS

DIRIGERA Hub You can use the DIRIGERA hub and IKEA Home smart app to create several groups of wireless blinds and control them in different ways. You can also set them to go up and down with a timer.

White	505.034.14

BLINDS

ALL THE PARTS

FYRTUR Motorized blackout roller blind With blackout blinds you won't get your sleep disturbed by moonlight and street lights — or be woken by the sun when you want to sleep in late. SERVICES

IKEA products are designed to be taken home and assembled by you. That way, you'll save the most money. But if you would like some help, we can offer a range of services. Assembly and delivery services fulfilled by an Independent Service Provider.
Contact your local IKEA store or visit the IKEA website for details: IKEA-USA.com/services

DELIVERY SERVICE

Most of our products are designed and packaged so that you can take them home yourself. If you prefer, we can arrange for delivery of your purchases directly to your home or business. Same day, next day or same week deliveries are available. We can also arrange for delivery at a later date if you would like.

TASKRABBIT ASSEMBLY SERVICE

All IKEA products are designed to be assembled by you, but you don't have to. We've partnered with TaskRabbit to connect you with a network of independent 'Taskers' who can provide quick and convenient assembly and mounting services for your IKEA purchases made online and in stores. You can schedule assembly service for as soon as the same day, with the Tasker of your choice. Visit TaskRabbit.com/IKEA or see a co-worker for more details.

Services and prices may vary, please see IKEA-USA.com/services or talk to us in your local IKEA store.

© Inter IKEA Systems B.V. 2017/2019
Valid as of October 1, 2022 posting. Prices and availability of products are subject to change without notice. Please see IKEA-USA.com or your local IKEA store for the most up to date pricing.
