

KRÖSAMOS

Seasonal collection / September 2022

Thoughts behind the collection

The KRÖSAMOS collection was designed with a focus on living a sustainable lifestyle at an affordable price. The collection is full of products to help people savor fresh ingredients, prepare food in a healthy way, and enjoy meals this autumn.

We want to help families to make smart, healthier choices. And encourage them to harvest and take care of the food that grows close to them, whether that's from their garden, balcony, local farmers' market or foraging in the woods.

It's all about harvesting, homemade, and hosting — enjoying good food together. While raising awareness of the small things we can do to eat and live more sustainably.

This theme fits right into the season — after summer going into autumn when you want to start fresh for a new semester with better habits.

Prepare

Start a new seasonal ritual

Ever tried to make your own juice from your garden's fruits and berries? This set from the KRÖSAMOS collection makes it simple — just put the berries in the strainer, mash and let the juice run down into the glass or bottle. So tasty!
