The elegant MORABO sofa series can easily be adapted to your home and your life. Choose the number of seats, shape and functions. If the family grows and the needs change, you can add to your sofa and let it grow with you. Choose a cover in leather and coated fabric, or in fabric — and choose if you want sofa legs in wood or metal. Matching sleeves for the legs are included.

This neat and welcoming sofa will last a long time since the seat cushions are filled with high resilience foam that gives good support for your body and quickly regains its original shape when you get up. Practical functions and plenty of combination possibilities make the series easy to furnish with, regardless of what your home looks like.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Good to know

MORABO in leather and coated fabric

MORABO leather sofa is a combination of our 3/4" thick grain leather called GRANN, which is a soft yet durable, dyed-through leather, and BOMSTAD coated fabric. Coated fabric has the look and feel of leather at a lower cost.

This is why IKEA often uses a combination of both, with leather on direct contacts areas such as seating surfaces and armrests (1), and coated fabric on other outer surfaces (2).

Grain leather

The natural variations in the hide are visible, as the leather is treated with only a light color coating for protection. The leather will acquire a beautiful patina over time. It's also easy to care for — just vacuum regularly with the soft brush attachment on your vacuum cleaner.

Coated fabric

Coated fabric is a fabric material with a coating, which can be embossed to look like leather. It's a strong and durable material and very easy to care for — just vacuum the surface using the soft brush attachment on your vacuum cleaner and wipe with a damp cloth.

Durability

All our different leather and coated fabrics have been treated to protect them and make them easy for you to look after. All have also been tested and approved for tear strength, flexibility and color fastness, so you can be sure you will enjoy your new sofa or armchair for many years to come.

Our fabrics have been tested

At IKEA we test the fabric covers on our sofas and armchairs so you can be sure they're durable. The fabric's ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home — and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.

Durable in different ways

Tough tests are an important way to check the durability of our fabric covers, but they don't tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibers can withstand abrasion better than fabrics with only natural fibers. Yarn-dyed fabrics are more durable than fabrics with printed patterns. And a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.

A wiser use of resources

IKEA strives to use more renewable, recycled and responsibly grown materials.

Polyester

When we create products from recycled polyester, PET bottles and other items made of polyester get a new life. The material has the same quality and function, and is just as clean and safe as virgin polyester — and we use less new materials.

Cotton

All the cotton we use for IKEA products comes from more sustainable sources. The cotton is either recycled or produced using methods that have less impact on the environment, and help create better living conditions for farmers and their families.

	Washing instructions	Resistance to abrasion (cycles)	Light-fastness (1-8)
Gunnared cover is made of dyed polyester fabric. It is a durable fabric with a wool-like feel, a warm look and a two-toned melange effect. 100% polyester.	Fixed cover	NA	6
The contact surfaces are covered with GRANN – a soft, smooth and strong grain leather with natural variations. Other surfaces have BOMSTAD, a coated fabric that has a similar look and feel to leather.	Fixed cover	NA	NA

SERVICES

IKEA products are designed to be taken home and assembled by you. That way, you'll save the most money. But if you would like some help, we can offer a range of services. Assembly and delivery services fulfilled by an Independent Service Provider. Contact your local IKEA store or visit the IKEA website for details: [IKEA.us/services](https://ikea.us/services)

DELIVERY SERVICE

Most of our products are designed and packaged so that you can take them home yourself. If you prefer, we can arrange for delivery of your purchases directly to your home or business. Same day, next day or same week deliveries are available. We can also arrange for delivery at a later date if you would like.

TASKRABBIT ASSEMBLY SERVICE

All IKEA products are designed to be assembled by you, but you don't have to. We've partnered with TaskRabbit to connect you with a network of independent 'Taskers' who can provide quick and convenient assembly and mounting services for your IKEA purchases made online and in stores. You can schedule assembly service for as soon as the same day, with the Tasker of your choice. Visit TaskRabbit.com/IKEA or see a co-worker for more details.

Services and prices may vary, please see [IKEA.us/services](https://ikea.us/services) or talk to us in your local IKEA store.
