Safety

Must be secured to the wall for a safe installation. Different wall materials require different types of hardware. Use hardware suitable for the walls in your home, sold separately.

If you are uncertain about the installation, contact a professional. The installation shall be made in accordance with valid local building and plumbing regulations.

Secure that the walls in your bathroom can support the weight of the sink cabinet, and if not, then use legs.

Care and cleaning

Wipe furniture clean with a cloth dampened in water or a non-abrasive detergent, then wipe dry with a clean cloth.

The sink and faucet should be wiped clean with a cloth dampened in water or a non-abrasive detergent.

Sinks in ceramic are resistant to most chemicals, except for strong acids and strong alkalis.

Sinks made of crushed marble should not come in contact with ammonia, acids, strong detergents, hair dye or chlorine.

Timeless beautiful design

The TÄNNFORSEN family introduces timeless design combined with generous, modern comfort. Beautiful details and long-lasting quality make this graceful bathroom series a statement of your unique style. The crafted, traditional expression awaits the finishing touches with your personal choice of knobs, handles, countertop, sink, faucet and legs.

This family comes in a selection of light, classic finishes. Cabinets with soft-closing doors and drawers hide cluttering accessories, while glass doors showcase your beautiful bottles and decorative baskets.

The included suspension rail makes it easier to mount the cabinet on the wall and the unique wedge dowels make assembly easy and the fittings nearly invisible.

TÄNNFORSEN furniture will withstand years of splashes and humidity and we guarantee it.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting IKEA-USA.com. For more detailed product information, see the price tag or visit IKEA-USA.com. All products shown require assembly. All textiles shown are imported.

How to plan

What do you want to store?

Start by thinking what storage needs do you have in your bathroom. Think of the activities that happen in your bathroom like laundry, shower, clean and care. How many people use the bathroom and when is the rush hour usually? Based on the activities and amount of people you can plan how many storage units that will best suit your needs.

Think about the wall space you have available for a sink cabinet and sink, since this is the center of most bathroom activities. The TÄNNFORSEN series comprises sink cabinets of different sizes, wall cabinet and high cabinet.

The drawers in TÄNNFORSEN sink cabinet are smooth running and pull out fully so you can easily see and reach what's inside. Pull-out stops prevent the drawers from being pulled out too far and falling, which is especially practical if you have children. All doors and drawers are equipped with soft closing function which makes the mornings and evenings quiet. The included fixed dividers that are perfect fit together with our organizers, VISSLÅN and BOLLÖSUND.

Choose the expression

After you have decided on the size of the sink cabinet, you can choose between different colors and find the one that suits your style. The sink cabinets need to be mounted to the wall, and you have a choice to have it with or without supporting legs. Next, choose a sink that fits your needs and space: single, double, semi-recessed or countertop. The sinks are made of ceramic or crushed marble. Ceramic sinks have a glazed finish and are easy to clean. They have excellent scratch resistance and are very durable. Crushed marble is comprised mainly of crushed minerals with binding agents. Crushed marble sinks are smooth, durable and easy to clean.

For ease of shopping, as each integrated and semi-recessed sink requires a water trap (sold separately), we've shown them as a part of each complete combination. The water trap comes with a flexible pipe. A pop-up plug is always included with the integrated and semi-recessed sinks. All countertop sinks comes with the water trap included.

If you choose a semi-recessed or countertop sink you need to combine a sink cabinet with the countertop. IKEA countertops have been developed with special attention to quality, so they are water resistant, durable and will last a long time. They come in different sizes that match the sink cabinets perfectly. Choose the look that suits you and your bathroom best.

You can find a wide selection of sink faucets at IKEA. Choose your faucet based on function and design. All faucets have a flow regulator that uses less water but ensures that the water flow feels the same.

Like putting icing on the cake - add knobs or handles to create the spot-on solution for your style and taste. These small details that make a big difference.

The last thing to decide is what to put above and around your sink: mirror, mirror cabinet, high cabinet or wall cabinet. The combination possibilities are endless. Make your choice based on your bathroom storage needs, space and style.

How to combine

Here is a guide to explain how you can put together your very own TÄNNFORSEN bathroom solution.
For all the parts and pieces see page 14. If you want to browse our ready-made solutions visit IKEA-USA.com

Sink cabinet with integrated sink

To build a sink cabinet with an integrated sink you need a sink cabinet, sink, water trap and faucet.

If you like the look of legs or are unsure how much weight your wall can hold, add legs at the front of each cabinet.
Complete your bathroom solution with a mirror, mirror cabinet, wall cabinet or high cabinet – all according to your need.

Sink cabinet with semi-recessed or countertop sink

To build a sink cabinet with a semi-recessed or countertop sink* you need a sink cabinet, countertop, sink, water trap and faucet.

If you like the look of legs or are unsure how much weight your wall can hold, add legs at the front of each cabinet.
Complete your bathroom solution with a mirror, mirror cabinet, wall cabinet or high cabinet – all according to your need.

*Countertop sinks have the water trap included.
