What will IKEA do to correct the problem?

IKEA will examine the product and decide, at its sole discretion, if it is covered under this limited warranty. If considered covered, IKEA through its own service operations, will then, at its sole discretion, either repair the defective product or replace it with the same or a comparable product. If it is covered by this limited warranty, IKEA will pay the costs of repairs, spare parts, labor and travel for repair staff that IKEA incur, provided that the product is accessible for repair without special expenditure. This does not apply to any repair work not authorized by IKEA. Replaced parts become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. It is IKEA that determines, at its sole discretion, what constitutes an appropriate replacement.

What is not covered under this limited warranty?

This limited warranty does not apply to products that have been stored, assembled or installed incorrectly, used inappropriately, abused, misused, altered, or cleaned using the wrong cleaning methods or cleaning products.

This limited warranty does not cover normal wear and tear, cuts or scratches, or damage caused by impacts or accidents.

This limited warranty does not apply if the product has been placed outdoors or in a humid environment.

This limited warranty does not cover consequential or incidental damage.

For customers in the US only: Some states do not allow the limitation or exclusion of incidental or consequential damage, so this limitation or exclusion may not apply to you.

Our sofas and armchairs are put to the test

At IKEA we test all our sofas and armchairs to be sure they're durable. We're especially tough on the ones that have long limited warranty. For example, we push 220 lb weights onto the seat 50,000 times – and 66 lb weights onto the back just as many times. We do all this to be sure the frames retain their stability and the cushions their resilience and comfort. The limited warranty we give is proof that our sofas and armchairs can take being used often and for a long time – and an assurance for you as a customer.

Care instructions

The cushions need to be cared for so that they maintain their comfort. They need to be plumped up on a regular basis, at least once a month. They should also be alternated, so that the cushions used most often change places with those used less often.

Tighten the screws on the legs after two weeks of use, and make sure they stay tight by checking them a couple of times per year.

Washable covers:

- Follow the care and cleaning instructions.
- Iron while still slightly damp.
- Refit the cover while it is still slightly damp. The cover stretches more easily when damp, so it is easier and quicker to get it into the right shape. Note! It is important, however, that the cover is not too damp when it is replaced on the frame.

Leather:

- Vacuum regularly with a soft vacuum brush.
- Keep leather furniture out of direct sunlight and leave a gap of at least 12in. to any sources of heat in order to prevent the leather from drying out.
- Clean thoroughly once or twice a year. Use ABSORB leather care products, available from IKEA.
- Never clean with detergents.
- White or light-colored leather furniture is sensitive to strong colours like those in red wine or coffee. For that reason, it is important to wipe off immediately. Use ABSORB leather cleaner, available from IKEA.

Coated fabric:

- Vacuum regularly with soft vacuum brush.
- Wipe with a damp cloth.
