

# Baby sleep

## Cribs, mattresses and accessories

### **Safety and comfort for your little one**

It's wonderful to be a new parent but it can also be rather worrying. That's why our cribs are rigorously tested to ensure they meet the strictest safety standards that exist in the world. Our cribs are durable and stable, and they adjust to fit babies as they grow so quickly. So you can sleep like a baby, too.

### **For sweet dreams and safe sleeping**

No parent should have to choose between affordability and their little one's safety and comfort. That's why we designed our crib mattress range. Every single one of our firm, well-ventilated crib mattresses meet strict safety standards. So it's not only your little one who will be resting well at night.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting [IKEA-USA.com](http://IKEA-USA.com). For more detailed product information, see the price tag or visit [IKEA-USA.com](http://IKEA-USA.com). All products shown require assembly. All textiles shown are imported.

# SAFETY IS OUR TOP PRIORITY

## Children's safety is always our highest priority

Our products are designed and tested to comply with all applicable safety requirements in the countries where the products are sold. We also test all our children's products at our own accredited test laboratory in Sweden, as well as at independent accredited test laboratories and institutes around the world.

IKEA fulfills the following safety criteria for cribs and mattresses around the world. If you want to learn more about a specific safety or test standard, please contact the U.S. Consumer Product Safety Commission (CPSC) or the authority that has issued the standard.

## How are our cribs tested?

All our cribs undergo several different tests to ensure they are safe to use. First, they are inspected for any protruding parts, loose parts or fittings, and sharp edges. Then, all gaps and openings between spindles and the slats in the crib base are measured. The crib is tested with impact and pressure tests for strength, stability and durability and to ensure that the spindles will not twist or rotate from their position and create potentially hazardous openings. The crib base is also tested. For example, in a test for the European market, we subject the crib base to impact from a 10 kg (22 lb) weight that is dropped 1,000 times from five different positions.

The same or similar tests are made on crib bases for cribs on all markets where we are active, but the tests may differ somewhat, depending on the specific requirements of the respective country.

## GOOD TO KNOW

1. No small components that can be removed, or worked loose, to eliminate the risk of choking.
2. Rounded edges and corners.
3. Ventilated crib base to avoid fungal growth.
4. Strong crib base.
5. The gap between the spindles is designed for optimum safety (babies cannot get their head stuck between them).
6. Stable, durable construction.
7. Non-toxic materials and surface treatment.

# HOW TO CHOOSE A CRIB

## Identify individual needs

Both you and your baby will sleep better if you use a crib for the baby. A crib is an enclosed, yet well-ventilated, sleeping environment that your baby cannot roll out of and will not get too warm or uncomfortable in. Most infants sleep deeply and are not easily disturbed by noise, voices or music. However, they do not sleep for long periods at a time and wake up

frequently. The enclosed sleeping environment of a crib helps your baby feel sheltered and protected.

In our selection you can find cribs with a traditional touch or cribs with modern shapes. Choose according to your style so it fits with your home.

## Designed to grow with your baby

Different living situations require different solutions — but all babies grow fast. That’s why most of our cribs are designed so that one side can be removed when the baby is big enough to climb into/out of the crib, transforming it into a bed.

Crib	2 position crib base	3 position crib base	Removable side	With storage	Guardrail included
GULLIVER	●	—	●	—	—
GONATT	●	—	●	●	—
SNIGLAR	●	—	—	—	—
SMÅGÖRA	●	—	●	—	—
SUNDAVIK	●	—	●	—	—
MYLLRA	—	●	●	●	●
ÄLSKVÄRD	●	—	●	—	●

1. When the baby is very small the base can be placed at the higher position.

2. As soon as the baby starts to sit by themselves, place the base at the lower position.

3. When the child is big enough to climb into the bed, one crib side can be removed.

# ALL THE PARTS

All IKEA cribs use a standard US crib mattress (W27½×L52").

## CRIBS

We have a wide variety of cribs in different styles and finishes. No matter which of our cribs you choose, you can be sure of one thing — every detail is well-thought-out. For your baby's safety, always use the same size crib and mattress to avoid gaps that the baby's head could become trapped in.

**SMAGORA** L53½×W29½×H32½". The bed base can be placed at two different heights. One bed side can be removed when the child is able to safely climb into and out of the bed. Your baby will sleep both safely and comfortably as the durable materials in the crib base have been tested to ensure they give their body the support it needs. The crib base is well ventilated for good air circulation which gives your child a pleasant sleeping climate.

White	404.612.35
-------	------------

**SUNDVIK** L54¾×W29¾×H34¾". The crib base can be placed at two different heights. One crib side can be removed when the baby is big enough to climb into/out of the crib. Your baby will sleep both safely and comfortably as the durable materials in the crib base have been tested to ensure they give their body the support it needs.

White	302.485.75
Gray	504.940.80

**GONATT Crib** L53½×W29½×H43¾". The bed base can be placed at two different heights. One crib side can be removed when the baby is big enough to climb into/out of the crib. Your baby will sleep both safely and comfortably as the durable materials in the crib base have been tested to ensure they give their body the support it needs. The crib base is well ventilated for good air circulation which gives your baby a pleasant sleeping climate. Under the crib there is a spacious storage drawer equipped with runners for toys or extra bedding — easy to roll in and out, and with a built-in drawer stop that keeps the drawer in place.

White	304.670.87
-------	------------

**ÄLSKVÄRD Crib** L54¾×W29¾×H37¾". The crib base can be lowered when your child starts to sit up on their own. One crib side can be removed when the child is big enough to climb into/out of the crib. Your child can sleep safely even after removing one crib side since a guard rail is included. We recommend you complete the crib with an IKEA crib mattress.

**GULLIVER Crib** L53½×W29½×H32½". The crib base can be placed at two different heights. One crib side can be removed when the baby is big enough to climb into/out of the crib. Your baby will sleep both safely and comfortably as the durable materials in the crib base have been tested to ensure they give their body the support it needs. The crib base is well ventilated for good air circulation which gives your baby a pleasant sleeping climate.

White	802.485.25
-------	------------

**MYLLRA Crib** L54¾×W31½×H39¾". If you want to create a complete children's room in the same style, you can combine the crib with the SMÅSTAD storage series — they match each other perfectly. Your child can sleep safely even after removing one crib side since a guard rail is included.

White	804.835.89
-------	------------

## BASSINET

**ÄLSKVÄRD Bassinet** L30¾×W27½×H31¾". Includes mattress. You can always have your baby close by since the bassinet is easy to move around and stays securely in place as soon as you lock the four wheels. The bassinet has just the right height for you to easily reach your baby. Small holes in the fabric allow air to circulate in the bassinet and make it possible for you to keep an eye on your baby. The mesh fabric can be removed and washed. If you want to create a complete children's room in the same style, you can combine the bassinet with the ÄLSKVÄRD crib and changing table — they match each other perfectly.

## COMPLEMENTARY PRODUCTS

Add extra comfort and coziness to your baby's sleeping space.

**LEN Bed canopy** L39×D18×H31". Filters the light, creates an atmosphere without blacking out. The fabric is made of 100% polyester, a durable material which is tested, approved, and free from harmful substances and additives.

White	204.649.04
-------	------------

**GULLIGAST Mobile** This mobile has soft figures inspired by nature and creates an exciting eye-catcher above the changing table. All faces and patterns meet the baby's gaze. Ø5".

Multicolor	304.842.80
------------	------------

**LENAST Crib skirt** L52×W28". Made from 100% smooth, fine thread cribton — an easy-care and durable material that you don't need to iron since wrinkles and creases give more life to the crib skirt.

Dotted/white	804.576.32
--------------	------------

**GULDVÄVARE Mobile** The figures and patterns face downwards to meet the child's upward gaze.

Multicolor	405.736.57
------------	------------

# HOW TO CHOOSE A CRIB MATTRESS

## 1. Choose your materials

Choose between spring or foam. All materials are safe and hygienic. If you are unsure ask yourself: what type of mattress do you prefer to sleep on?

**Spring mattresses:** The spring mattresses are made with a pocket spring construction. The construction of spring crib mattresses allows air to flow freely, promoting good air circulation and a favorable sleeping climate. A protective foam box adds comfort and durability.

**Foam mattresses:** The foam mattresses use quality polyurethane or high resilience foam, which are well cut, durable and intended for sleeping, therefore making both a safe choice for crib mattresses. High resilience foam is durable, relieves pressure points, and provides comfort and support for your growing baby.

## 2. Identify individual needs

How many years do you think you will use your crib mattress? The longer you plan on keeping the same mattress will affect which mattress you should choose. If you want to use the same mattress into the toddler years, a thicker and more durable mattress will provide better support for older babies and toddlers, who like to stand and bounce in their cribs.

## 3. Choose your mattress

On the following pages you will find all of our baby mattresses offered, along with detailed facts for each.

## GOOD TO KNOW

1. All our crib mattresses are firm, to provide a safe sleeping environment for your baby.
2. All mattresses provide some pressure relief, because they are made with materials like pocket springs or high resilience foam.
3. Well ventilated cover aid better air circulation.
4. All children's mattresses promote good air flow, thanks to carefully considered choices in materials and construction.
5. Removable and machine-washable covers create a hygienic sleeping environment for your baby.

# ALL CRIB MATTRESSES

All our crib mattresses are made of safe, durable materials. Free from harmful chemicals and well-ventilated, they all provide a safe and comfortable sleeping environment for your baby. Some have handles that simplify making the bed. The materials have various properties. Foam is elastic and distributes your baby's body weight evenly. So does high resilience foam, but it also regains its shape faster and lasts

longer. Spring mattresses have wrapped pocket springs that follow the baby's movements exactly.

For your baby's safety, always use the same size on crib and mattress to avoid gaps that the baby's head could become trapped in.

All IKEA cribs use a standard US crib mattress (W27½×L52").

## FOAM MATTRESSES

### Care instructions

Cover:

**PELLEPLUTT** This mattress is made of 2¾" thick foam and has the same, smooth surface on both sides. You can easily turn it over if you like. The cover can also be removed and machine washed at hot.

52×27½"

003.480.29

### Care instructions

Cover:

Inner cover:

Wipe clean with a damp cloth.

**KRUMMELUR** This 3½" thick mattress has two different surfaces one wavy side with medium-firm comfort and one smooth side which is firmer. The structure of the foam makes the mattress comfortable and well-ventilated, which provides good support and a pleasant sleeping environment for your baby. The cover is also easy to remove and can be machine washed at hot.

52×27½"

### Care instructions

Cover:

Inner cover:

Wipe clean with a damp cloth.

**SKÖNAST** An 3½" thick mattress with pressure relieving, elastic, high resilience foam that regains its shape quicker and lasts longer than ordinary foam. The material follows your baby's body and provides comfortable and firm support. The cover is easy to remove and can be machine washed at hot.

52×27½"

303.485.32

## SPRING MATTRESS

### Care instructions

Cover:

Inner cover:

Wipe clean with a damp cloth.

**JÄTTETRÖTT** This 4¾" thick mattress has individually wrapped pocket springs enclosed in a generous layer of pressure-relieving foam. Since the springs work independently, they closely follow your baby's body and provide support in the right places. The well-ventilated construction provides your baby with a pleasant sleeping environment. A practical handle makes the mattress easy to carry and to turn over when making the bed. You can remove the cover and machine wash it at hot.

# Services

IKEA products are designed to be taken home and assembled by you. That way, you'll save the most money. But if you would like some help, we can offer a range of services. Assembly and delivery services are fulfilled by an Independent Service Provider. Contact your local IKEA store or visit the IKEA website for details: [IKEA-USA.com/services](https://www.IKEA-USA.com/services)

## **DELIVERY SERVICE**

Most of our products are designed and packaged so that you can take them home yourself. If you prefer, we can arrange for delivery of your purchases directly to your home or business. Same day, next day or same week deliveries are available. We can also arrange for delivery at a later date if you would like.

## **TASKRABBIT ASSEMBLY SERVICE**

All IKEA products are designed to be assembled by you, but you don't have to. We've partnered with TaskRabbit to connect you with a network of independent 'Taskers' who can provide quick and convenient assembly and mounting services for your IKEA purchases made online and in stores. You can schedule assembly service for as soon as the same day, with the Tasker of your choice. Visit [TaskRabbit.com/IKEA](https://www.TaskRabbit.com/IKEA) or see a co-worker for more details.

Services may vary, please see [IKEA-USA.com/services](https://www.IKEA-USA.com/services) or talk to us in your local IKEA store.
