Or you can choose one of our suggested storage solutions and add or remove interior organizers as you wish. Whatever you choose, the result is a wardrobe to suit both your home and your clothes.

Use our planning tools

You can create your wardrobe in the planner found in the PAX area of the store or in the comfort of your own home. Just visit the bedroom section of the IKEA website, go to the PAX planner at IKEA-USA.com/PAXplanner and start making a wardrobe uniquely designed for you, by you.

Choose your wardrobe

We have a wide range of PAX/KOMPLEMENT combinations to choose from which you can find in the store or on our website at IKEA-USA.com. If you don't find a pre-designed solution that you like, you can use our PAX/KOMPLEMENT planner to create the perfect solution that suits your needs and taste.

Begin by looking through the ready-made combinations on the web or in the planner gallery and choose one that inspires you. You will then have a pre-designed combination to start from that you can customize to your needs. You can, for example, change the size and the color of the wardrobe, or the interior organizers.

You can also use the planner to design your own unique PAX/KOMPLEMENT combination from scratch. There are three simple steps to follow when choosing your wardrobe solution.

1. Choose frames. Consider how much space you have available in your room. It´s important to know the maximum height and width of your new wardrobe. Remember, you can also make the most of unused space with corner units.

2. Pick your style. What color do you want your wardrobe to be? We can offer a wide selection selection of doors in different colors.

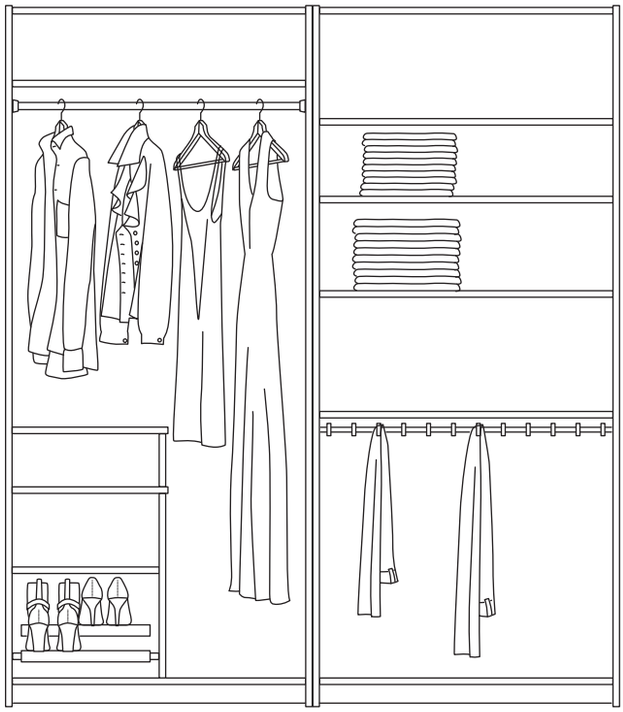

3. Choose interior organizers. Think through your day-to-day needs. Do you have a lot of shoes? Then a pull out tray with shoe inserts could be a good option for you. Or perhaps you have a lot of pants? Then a pants hanger will come in handy. If you keep your summer and winter clothes in the same place, deep baskets will store your clothes neatly away.

Once you have decided on the interior organizers, it's time to add the finishing touches. Complete your new wardrobe with your choice of boxes and inserts from our extensive range of interior accessories. And for a really great result, don't forget the integrated lighting! Simple to install and makes it so much easier for you to find the right outfit.

The PAX/KOMPLEMENT planner helps you to calculate the price of your wardrobe and allows you to print or save a product list that you can bring to the store or use to buy online.

The planner can be found in the wardrobe area of the store or in the comfort of your own home. Just visit the wardrobe department on the IKEA website and go to the PAX/KOMPLEMENT wardrobe planner: **IKEA-USA.com/PAXplanner**

INTEGRATED LIGHTING

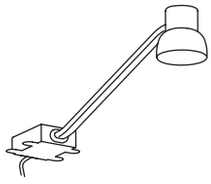

HOW TO CHOOSE

Now you don’t need to worry about getting bright light in your eyes or it waking up your partner when you look for clothes. Instead, you start the day when you open your wardrobe and the soft light from our LED lighting strips turns on. Or choose cabinet lighting placed on top of the wardrobe to help you see what’s on the top shelf also provides a nice and cozy atmosphere in the entire room when the wardrobe doors are closed. You can even connect to IKEA Smart lighting using the TRÅDFRI gateway.

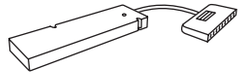

BASIC PARTS

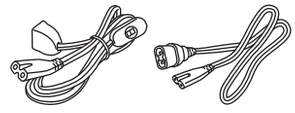

NORRFLY or STÖTTA LED lighting strips.

Cabinet lighting, URSHULT, LINDSHULT.

LED driver.

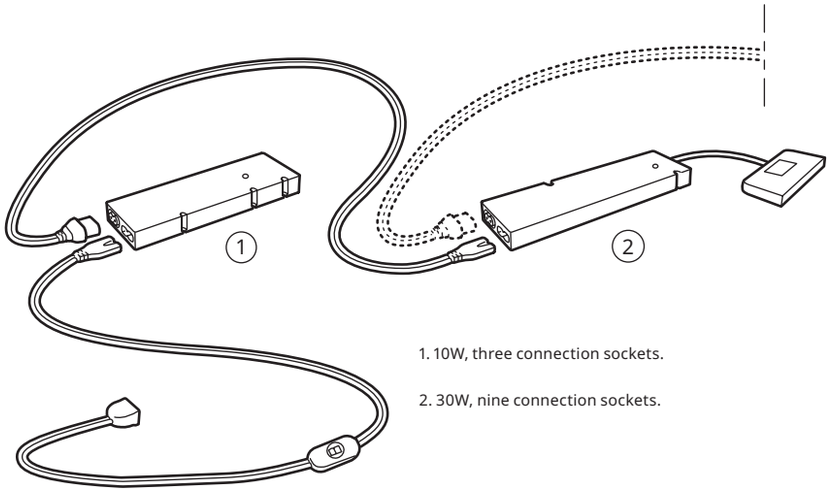

Power supply cord and intermediate connection cord.

TRÅDFRI remote control.

See All Parts and Prices list on page 18 for more information about each product.

HOW TO CHOOSE A DRIVER

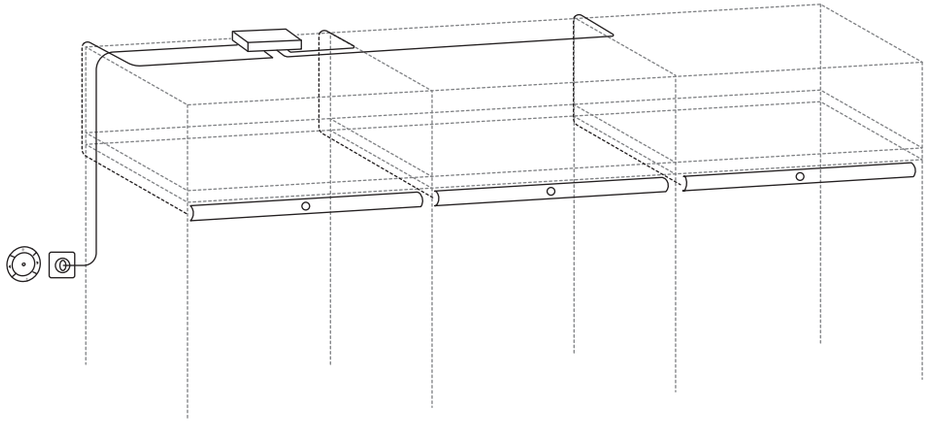

1. 10W, three connection sockets.

2. 30W, nine connection sockets.

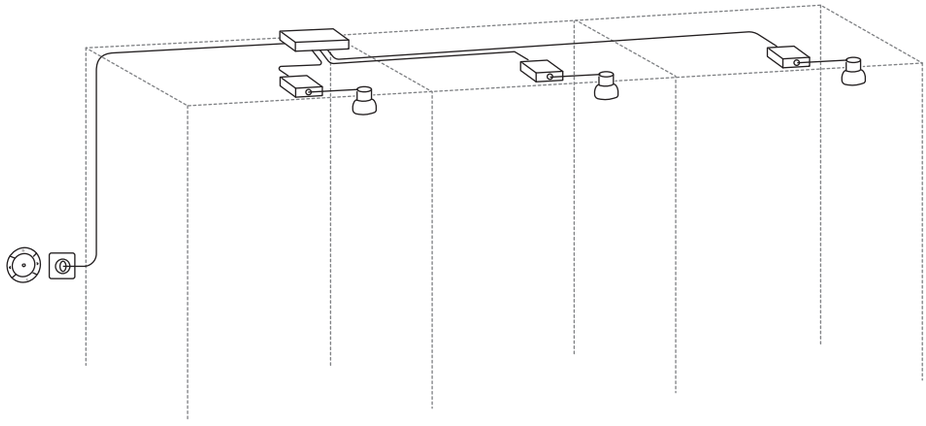

There are two LED drivers. Choose based on how many units you want to connect. You can connect up to three units to the 10W LED driver, as long as the total wattage does not exceed 10W. The 30W LED driver can support up to nine units, max. wattage 30W. You can connect up to ten drivers in one installation cord. Flashing lights indicate that the maximum wattage of the LED driver is exceeded. If you want to use more than one LED driver, make sure to synchronize each LED driver with the TRÅDFRI remote control so that the entire combination can be dimmed at the same time. Make your cabinet lighting smart by adding the TRÅDFRI gateway. With the gateway, you can control your lights from the IKEA Home Smart App and create a mood together with your other TRÅDFRI lighting.

COMBINATIONS

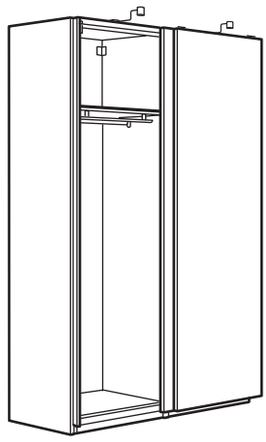

HINGED DOORS

NORRFLY LED lighting strip is perfect so that you can see what you have stored in your wardrobe. Place the lighting strip under the top of the wardrobe or under any upper shelf so that the light can shine down. Besides a lighting strip, you can add cabinet lighting if you like, which is not only functional but also provides a nice light in the room when the wardrobe is closed.

Shopping list		**Qty**

URSHULT LED cabinet light, Nickel-plated, 2W	602.604.05	2 pc

SLIDING DOORS

If you have a wardrobe with sliding doors and a soft-closing mechanism under the top of the wardrobe, you need a lighting strip with a specific length when installing a lighting strip under the top of the cabinet. The mechanism needs 7", so the lighting strip must be shorter than the width of the wardrobe in order to fit. For frames with 29½" width, you need a 16½" long lighting strip, and for frames with 39¼" width, you choose a 26" long lighting strip. When installing a lighting strip one shelf lower, you can use the normal sizes.
