Care

Wipe clean with a cloth dampened in a mild cleaner. Wipe dry with a clean cloth.

Glass: Wipe clean with a cloth dampened in water or window-cleaner. Wipe dry with a clean cloth.

Good to know

Tempered glass should be handled with care. All glass is fragile and a damaged edge or scratched surface can in exceptional cases cause the glass to suddenly crack and/or break.

You can mount a stackable unit on a 18% deep cabinet to create a vertical combination. Save the included plinth if you want to convert the stackable unit to a standalone at a later stage.

Two people are needed for assembly of this furniture.

Safety

To prevent this furniture from tipping over, it must be permanently fixed to the wall using the wall attachment fittings included in the packaging. As wall materials vary, screws for wall fixation are not included. For advice on suitable screw systems for your wall, contact your local specialised dealer. Wall fixing must be carried out by a qualified person, since wrong fixation may cause injury or damage.

When stacking modules to create combinations please follow the principle of deepest depth in the bottom, shallow depths on top.

For safety reasons, TONSTAD units are not to be hung on a wall.

TVÅRDRAG Cabinet lighting. The traditional expression of the lamp goes nicely with the cabinets in the TONSTAD, HAVSTA and HAUGA series. The metal shade creates a direct light that illuminates your cabinet or wardrobe. If you want the lamp's light to be directed into your display cabinet, just angle the lamp head inwards. Provides a focused light that is good for lighting smaller areas. You can dim your lighting wirelessly and easily adapt the lighting based on activity. The bracket makes it possible to slide the lamp back and forth. You easily attach it with screws – or with double-sided adhesive tape on glass and metal surfaces. The LED light source consumes up to 85% less energy and lasts up to 20 times longer than incandescent bulbs. You can turn up to six light sources on and off simultaneously if you complete with ANSLUTA driver. If you also want to be able to dim, choose TRÅDFRI driver and STYRBAR or RODRET wireless dimmer instead. Sold separately.
