Good, functional lighting

Lighting is important in all kitchens, both for safety and appearance. Good, even lighting across your countertop makes cooking and other kitchen chores safer, easier and more fun. Spotlights, cabinet lighting and drawer lighting doesn’t just help you to find what you’re looking for, but adds a decorative element to your kitchen.

Conventional or connected smart IKEA lighting?

At IKEA, we have three series of integrated kitchen lighting: OMLOPP, STRÖMLINJE and IRSTA. The OMLOPP series covers three functions, worktop lighting, drawer lighting and spots. The STRÖMLINJE series has a slim design and is easy to install. The IRSTA series is a modern and very thin LED lighting, which covers the entire underside of the wall cabinet and therefore provides an even lighting spread over the entire countertop. Use the TRÅDFRI wireless dimmer and set the mood for every occasion. Add the TRÅDFRI gateway to control OMLOPP, STRÖMLINJE and IRSTA from the IKEA Home Smart app in different ways together with other TRÅDFRI lighting in your home.

PLANNING OR UPDATING YOUR KITCHEN?

No kitchen is complete without good, functional lighting. That's why it's a good idea to include lighting already when you're planning and buying your kitchen. It makes it easier to install and saves you lots of time and effort. But what if you just want to improve the lighting in your current kitchen? Don't worry, we have solutions for that, too. Remember that all kitchens are different – plan for your own needs!

HOW TO PLAN

Start by deciding where you want lighting in the kitchen. Then decide which lighting to suit you and your kitchen best. Start by choosing your preferred countertop lighting. Then add spotlights, cabinet light and drawer light.

Check out our offer below:

**Countertop lights**

At IKEA, we have three integrated lighting series – OMLOPP, STRÖMLINJE and IRSTA. All give you task lighting, mood lighting and are dimmable. You save energy too, since these series use LED, which consume 85% less energy and last up to 20 times longer than a regular incandescent bulb.

Use: OMLOPP, STRÖMLINJE, IRSTA.

**Spotlights and cabinet lights**

Spotlights are a decorative and functional choice for wall cabinets with glass doors. They make it easy to look inside your cabinets and brighten up your kitchen at the same time.

Cabinet lighting is easy to choose, as it comes in different versions to match both modern and traditional styles.

Use: OMLOPP, URSHULT, LINDSHULT, MAGLEHULT.

**Drawer lights**

OMLOPP drawer lights switch on and off as you open and close your drawers. No more hide and seek with your kitchen equipment!

Use: OMLOPP.

* In some countries electrical installation work may only be carried out by an authorized electrical contractor. Contact your local electricity authority for advice.

** Drivers and cords are sold separately.
OMLOPP LED COUNTERTOP LIGHTING

HOW TO BUILD

OMLOPP countertop lighting is easy to install by yourself. See the list below for all parts and accessories that you need.

- Start by choosing the number of OMLOPP light strips that you need.
- Add the correct TRÅDFRI LED driver: 10W or 30W. See page 8 for more information about the drivers.
- Add the TRÅDFRI gateway to control TRÅDFRI connected lighting from the TRÅDFRI app in different ways together with other TRÅDFRI lighting in your home.
- You can connect up to 10 TRÅDFRI LED drivers in one installation using the intermediate connection cord.
- Add the ANSLUTA power cord.
- Add the TRÅDFRI wireless dimmer to dim your lights. Pair the dimmer to the driver(s) and the entire combination will dim at the same time.
- If you want, you can complete the system with other products, like spotlights, drawer lighting or cabinet lights.

Basic parts

OMLOPP LED countertop light
Length: 15”, 18” and 24”
Color: White and aluminum

TRÅDFRI LED driver
Power: 10W and 30W.

ANSLUTA Power cord
Length: 11’6”

TRÅDFRI Wireless dimmer
Color: White

Installation accessories

ANSLUTA Intermediate connection cord
Length: 28” or 79”

TRÅDFRI Gateway

COMBINATION

To find the power consumption (W) for each product, see All Parts and Prices on page 9.

HOW TO BUILD

STRÖMLINJE LED countertop lighting is really simple to install on your own. Since the units connect directly together with the two small connecting fittings, there are less cords to keep in order.

- When you start building your system, you must first consider the widths of your cabinets, e.g., for a cabinet with a width of 30”, you’ll need 2 units which both have a width of 15”.
- Add the correct TRÅDFRI LED driver: 10W or 30W. See page 8 for more information about the drivers.
- Add the TRÅDFRI gateway to control TRÅDFRI connected lighting from the IKEA Home Smart app in different ways together with other TRÅDFRI lighting in your home.
- You can connect up to 10 TRÅDFRI LED drivers in one installation using the intermediate connection cord.
- Add the power cord.
- Add the TRÅDFRI wireless dimmer to dim your lights. Pair the dimmer to the driver(s) and the entire combination will dim at the same time.
- If you want, you can complete the system with other products, like spotlights, drawer lights or cabinet lights.

IRSTA COUNTERTOP LIGHTING

HOW TO BUILD

• Start by selecting the number of IRSTA LED countertop lights you need. Since they cover the entire underside of the wall cabinets, you can select based on the dimensions of the cabinets. It couldn’t be easier!
• Add the correct TRÅDFRI LED driver: 10W or 30W. See page 8 for more information about the drivers.
• Add the TRÅDFRI gateway to control TRÅDFRI connected lighting from the IKEA Home Smart app in different ways together with other TRÅDFRI lighting in your home.
• You can connect up to 10 TRÅDFRI LED drivers in one installation using the intermediate connection cord.
• Add the power cord.
• Add the TRÅDFRI wireless dimmer to dim your lights. Pair the dimmer to the driver(s) and the entire combination will dim at the same time.
• If you want, you can complete the system with other products, like spotlights, drawer lights or cabinet lights.

LED SPOTLIGHTS AND CABINET LIGHTS

HOW TO BUILD

- Start by choosing all parts that you need.
- Add the correct TRÅDFRI LED driver: 10W or 30W. See page 8 for more information about the drivers.
- Add the TRÅDFRI gateway to control TRÅDFRI connected lighting from the IKEA Home Smart app in different ways together with other TRÅDFRI lighting in your home.
- You can connect up to 10 TRÅDFRI LED drivers in one installation using the intermediate connection cord.
- Add the power cord.
- Add the TRÅDFRI remote control to dim your lighting. Pair the dimmer to the driver(s) and the entire combination will dim at the same time.

Basic parts

OMLOPP LED spotlights or LED cabinet light*
Diameter, round spotlight: 2¼" 
Color: White, aluminum and black
* You can also use URSHULT, LINDSHULT and MAGLEHULT. For measurements, see All Parts and Prices on page 9.

TRÅDFRI LED driver
Power: 10W and 30W

ANSLUTA Power cord
Length: 11'6"

TRÅDFRI Wireless dimmer
Color: White

Installation accessories

ANSLUTA Intermediate connection cord
Length: 28" or 79"

TRÅDFRI Gateway

HOW TO CONNECT

OMLOPP
You need to add a TRÅDFRI LED driver, a power cord and a TRÅDFRI remote control. Add an intermediate connection cord if you’re using more than one driver.

STRÖMLINJE and IRSTA
You need to add a TRÅDFRI LED driver, a power cord and a TRÅDFRI remote control. Since the units connect directly together, there are less cords to keep in order.

To find the power consumption (W) for each product, see All Parts and Prices on page 8.
LED DRAWER LIGHTS

HOW TO BUILD

• Start by choosing all parts that you need.
• Add the correct TRÅDFRI LED driver: 10W or 30W. See below for more information about the drivers.
• You can connect up to 10 TRÅDFRI LED drivers in one installation using the intermediate connection cord.

Basic parts

OMLOPP LED lighting strip for drawers
Length: "14", "17", "23", "29" and "34"
Perfect for your "15", "18", "24", "30" or "36" SEKTION cabinets

TRÅDFRI LED driver
Power: 10W and 30W

ANSLUTA Power cord
Length: 11'6"

• Add a power cord.
• The lighting strip has a motion sensor, so that the light turns on and off automatically as you open and close the drawer.
• Add a TRÅDFRI wireless remote control.

HOW TO CONNECT

STRÖMLINJE, OMLOPP & IRSTA
Buy a separate transformer for your drawer lighting. It will be easier to install. Add ANSLUTA intermediate connection cord if you have more than 1 transformer. Do not pair the driver for drawer lights with your other kitchen lights as it can turn off the functionality of the lights.

HOW TO CHOOSE AN LED DRIVER

There are two LED drivers. Choose based on how many units you want to connect. You can connect up to three units to the 10W LED driver, as long as the total wattage does not exceed 10W. The 30W LED driver can support up to nine units, max. wattage 30W. You can connect up to 10 drivers in one installation cord. Flashing lights indicate that the maximum wattage of the LED driver is exceeded. If you want to use more than one LED driver, make sure to synchronize each LED driver with the TRÅDFRI remote control so that the entire combination can be dimmed at the same time. Make your cabinet lighting smart by adding the TRÅDFRI gateway. With the gateway, you can control your lights from the IKEA Home Smart app and create a mood together with your other TRÅDFRI lighting.
ALL PARTS AND PRICES

OMLOPP LED countertop light L15". To be completed with a TRÅDFRI LED driver and ANSLUTA power cord, sold separately. Dimmable with TRÅDFRI remote control, sold separately. LED life approx. 25,000 hours. 3.4W.

BEGIN SKETCHING YOUR LIGHTING NEEDS!
SERVICES

IKEA products are designed to be taken home and assembled by you. That way, you’ll save the most money. But if you would like some help, we can offer a range of services. Assembly and delivery services fulfilled by an Independent Service Provider. Contact your local IKEA store or visit the IKEA website for details: IKEA-USA.com/services

DELIVERY SERVICE

Most of our products are designed and packaged so that you can take them home yourself. If you prefer, we can arrange for delivery of your purchases directly to your home or business. Same day, next day or same week deliveries are available. We can also arrange for delivery at a later date if you would like.

PICKING WITH DELIVERY SERVICE

We’ll collect the products on your shopping list from throughout the store and deliver everything to your home or office. See an IKEA co-worker and tell them what you’re looking for and they will book and print your items on a customer order. Take this order to the check-outs and pay for your purchases both goods and services. And you’re on your way!

IKEA Projekt credit card

Your dream home is now within reach. With the special financing options on our IKEA Projekt credit card*, you don’t have to put off loving every room in your home.

*Subject to credit approval.
IKEA Projekt Credit Card Accounts are issued by Comenity Capital Bank.

To learn more visit IKEA-USA.com/creditcard or drop by your local store.

Services and prices may vary, please see IKEA-USA.com/services or talk to us in your local IKEA store.
