

Beds

A good day always starts with a good night

Feeling your best when you wake up starts with the right bed. In this buying guide, you will find all of our beds, including bed frames with and without storage, daybeds, loft beds, bunk beds and upholstered beds. You will also get an overview of our bed accessories, such as headboards and bed storage boxes.

Of course, a bed is not complete without a mattress and bedding. You can test and find the best mattress for you in the mattress studio. The textiles department has a wide range of comforters, pillows and bed linens.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting [IKEA-USA.com](https://www.ikea-usa.com). For more detailed product information, see the price tag or visit [IKEA-USA.com](https://www.ikea-usa.com). All products shown require assembly. All textiles shown are imported.

How to buy a complete bed

A complete bed frame with mattress consists of these parts:

1. Choose a bed frame style and size.
2. SKORVA midbeam (art nr 901.245.34) is needed for most full, queen and king beds. It is picked up separately in the self-serve furniture area. For upholstered bed frames, the midbeam is included in the packaging.
3. For most bed frames, you will also need to choose a slatted bed base, see more on page 6. For some upholstered bedframes, the slatted bed base is included in the price and packaging.
4. Choose a mattress or use the one you have at home. You can find the best one for you in the mattress studio.
5. Add a mattress pad of your choice for a softer sleeping surface.

Slatted bed bases

Combined with a bed frame, slatted bed-bases can be used as a base for spring, foam and latex mattresses. They help your mattress last longer and stay comfortable by absorbing most of the stress and weight placed on your bed.

Bunk beds and loft beds

Suitable for children from 6 years of age

Bunk beds have sleeping for two – an upper bunk and a lower bunk. Loft beds provide sleeping for one, with space underneath for storage, play or study. Both are twin beds. Only children over age 6 should sleep in the top bunk. The top bed has a solid guardrail at a good height for the safety of the top sleeper. Minimal gaps in the rail ensure that the child cannot fall out. But the guardrail loses its function if the

mattress is too high up in the bed to make the guardrail protective. So use a mattress that is the right thickness for a loft bed or top bunk.

Complete the loft bed with a mattress in a matching size and the bunk bed with two twin mattresses. Slatted bed base is included and SKORVA midbeam is not needed for loft and bunk beds.
