Say hello to the HYL TARP series of great family sofas, including a sofa bed! A traditional style that works in a modern context with its classic, clean and neat look. The day is done. Time to relax. Enjoy time with family, friends or just a well-earned quiet moment to yourself. Whatever you choose, HYL TARP sofa is up to the task with its inviting, sink-in comfort of the deep seats. And if things get a bit messy, you can always wash the covers.

Storing made easy

Can there ever be too much storage in a home? We would say no – and HYL TARP sofa with chaise is built for the task. Regardless of whether you want to hide away throws, cushions, board games or secrets – or just the clutter that disturbs your eye for the moment and that you quickly want to get out of sight! The lid of the chaise automatically stops in the open position, so you can easily pick out and put back the things that you are storing.

If you're looking to bring nature into the living room and give your HYL TARP sofa a facelift in the process, look no further. The natural-fiber look and feel of our HYL TARP sofa covers come in a calm and relaxing color palette. An added benefit is that the covers are easily removable and washable. Some of our HYL TARP covers are available directly in the store, others are made-to-order items and delivered to your home.

Good to know

Our fabrics have been tested

At IKEA we test the fabric covers on our sofas and armchairs so you can be sure they're durable. The fabric's ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home – and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.

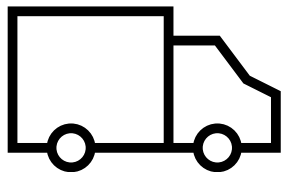

Durable in different ways

Tough tests are an important way to check the durability of our fabric covers, but they don't tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibers can withstand abrasion better than fabrics with only natural fibers. Yarn-dyed fabrics are more durable than fabrics with printed patterns. And a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.

	Washing instructions	Resistance to abrasion (cycles)	Light-fastness (1-8)
Gransel, a fabric with elements of linen and viscose with a slight luster and vivid expression. The cover that falls naturally, giving the sofa a relaxed, inviting look. Cotton, viscose/rayon, polyester (min. 90% recycled), and linen.	Machine wash warm.	30,000	5
Hallarp, a fabric in cotton and polyester. It's soft, comfortable and durable - and woven with a texture. Cotton/ polyester (100% recycled).	Machine wash warm.	15,000	5
Kilanda, a fabric in polyester. The texture and melange effect give the fabric a vibrant surface that is soft and has a luxurious feel when you touch it. 100% polyester (min. 90% recycled).	Machine wash warm.	55,000	6
Hemmesta, a fabric in cotton polyester. Irregular yarns in colors that go slightly tone-on-tone create depth and a lot of character for this durable cover. Cotton/polyester (100% recycled).	Machine wash warm.	50,000	5-6
Tallmyra is a durable chenille cover made of cotton and polyester and has a soft surface and a slightly reflective lustre. Cotton/polyester.	Machine wash warm.	30,000	5
