 Speakers to feel at home, where ever you are.
Our Bluetooth speakers are designed to fit perfectly with your home’s interior and furniture and they have a clear and powerful sound. ENEBY 12×12” fits in our KALLAX wall cabinet, while ENEBY 8×8” can be completed with a battery so that you can place it wherever you don’t have a wall socket. With ENEBY Portable you can listen to great music on the go. And ENEBY Built-in can fit in most pieces of furniture and fits perfectly in the pre-cut hole of the MICKE desk.
Why Bluetooth?
Bluetooth speakers are great for a portable music experience in your home or outside. You connect to the speaker from your phone or from other Bluetooth enabled devices. By adding batteries to the speakers, they become truly portable and you can enjoy your music anywhere.

Batteries
The rechargeable batteries for our Bluetooth speakers are sold separately. If you choose to use the speakers with the included power cord, you can always add batteries at a later time. Rechargeable batteries are better for your wallet and for the environment, and you can easily replace the batteries after the end of their lifespan.

GOOD TO KNOW
Recycling
All rechargeable batteries have a limited number of charge cycles. It might be time for new batteries if you need to charge your device more frequently. Just make sure to recycle the old ones.
