EKET

Storage series

CARE

Wipe clean with a cloth dampened in a mild cleaner. Wipe dry with a clean cloth.

SAFETY

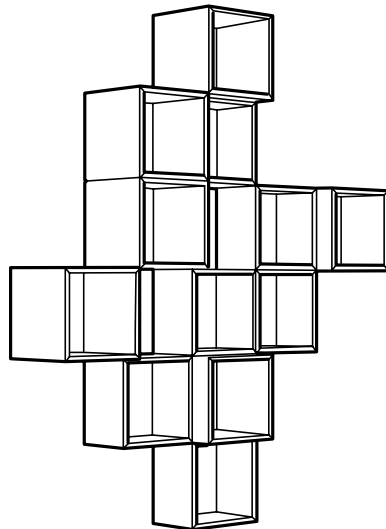

Tempered glass should be handled with care. A damaged edge or scratched surface can cause the glass to suddenly crack and/or break. Avoid collisions from the side — this is where the glass is most vulnerable.

Secure It! Prevent tip-over injury. Furniture with included restraints must be secured to the wall according to the assembly instructions.

If the product is to be hung on the wall, it must be done with the designated suspension rail (sold separately at IKEA).

Assess the wall to ensure that it will withstand the weight. As wall materials vary, hardware is not included. For advice on suitable screw systems for your wall, contact your local hardware store. Wall fixing/hanging must be carried out by a qualified person, since wrong fixation may cause injury or damage. To be completed with EKET base frames/feet/base on legs/legs (sold separately at IKEA) if the product is to be placed on the floor. EKET connection hardware (sold separately at IKEA) for stacking the modules on each other are only to be used when building a floor-standing combination.

Different wall materials require different types of hardware. Use hardware (sold separately) suitable for the walls in your home.

Storage entirely on your terms
