Looking for extra counter space and storage? An island can do both. The thick oak veneer countertop of TORNVIKEN kitchen island is a durable natural material that can be sanded and surface treated when required. Oak is an exceedingly strong and durable hardwood with a prominent grain. It darkens beautifully with age, acquiring a golden-brown undertone. 10-year limited warranty. See page 140

Life in the kitchen goes a lot smoother when your drawers open up fully to help you reach everything. With interior fittings and organizers inside cabinets and drawers, finding what you're looking for will be easy-peasy. See page 46

Steps to buying an IKEA kitchen

IKEA kitchens are designed so that you can install them yourself. To the right are some steps to ensure the process goes well for you. Should you have any questions, don't hesitate to talk to our kitchen experts at your local IKEA store or visit us at: [IKEA-USA.com](https://www.ikea-usa.com)

Find your style

It's time to dream a little, look at some ideas, consider your needs and decide what an ideal kitchen means for you. This buying guide is made to give you an overview of some of the possibilities, but there is so much more. You can find more ideas and inspiration on our website, in the kitchen brochure or by visiting your local IKEA store.

Measure

When measuring it's important to take your time and get your measurements correct. This will form the foundation of all your planning. To see exactly what to measure, take a look at the planning guide, *IKEA Kitchen Planning Guide*, at [IKEA-USA.com/buyingguide](https://www.ikea-usa.com/buyingguide)

→ **We can do it for you**
To learn more about our Measuring services see **page 6**

Plan

Planning your kitchen is when your dreams and ideas take shape. Use the online IKEA Home Planner tool to start planning your kitchen. We have trained coworkers who can review your design, answer your questions, and provide advice. Or, we can do it for you in the store or online.

→ **We can do it for you**
To learn more about our Kitchen planning services, view **page 6**

Order

When you're satisfied with your planning, visit your local IKEA store and talk to our kitchen experts. They will go over your kitchen plan with you, and help you with anything you're not sure about. When you are ready you can order and we can help with delivery.

→ **We can do it for you**
To learn more about our Delivery service, see **page 7**

Install

IKEA kitchens are designed to be installed by you, but we're here to offer as much help as you feel you need. You can start by picking up the kitchen installation guide from the store, which gives step-by-step instructions on installing your kitchen.

→ **We can do it for you**
To learn more about our Kitchen installation service, view **page 7**

Services

You can do it yourself, but you don't have to

Our service offer gives you the freedom to design your own price tag by choosing not only the products that suit your budget but also by deciding how much you want to do yourself and how much you want us to do for you. On this page you'll find the different services that are available to help and support you. For more details about our services, talk to a co-worker at your local IKEA store or visit us at [IKEA-USA.com/kitchenservices](https://www.ikea.com/us/en/kitchenservices)

Kitchen Measurement Service

It's important to have your kitchen accurately measured before planning begins. An experienced IKEA Measurement Technician will come to your home, take all of the essential measurements, and enter the data in the IKEA Home Planner. Your Measurement Service fee is refunded when you have IKEA install your kitchen. Available for customers living within our service area.

IKEA Home Planner

You can plan your kitchen on your computer with our online 3D IKEA Home Planner at [IKEA-USA.com/kitchenplanner](https://www.ikea.com/us/en/kitchenplanner). It's free, it's fun and it calculates your price as you click along. You can PRINT, SAVE and CHANGE your kitchen plan as many times as you want. Then come to the store and get advice — you can access the same plan you've been working on — and share it with our IKEA Kitchen Specialists.

Free Kitchen Planning Service

We offer two **no cost** options to have your kitchen professionally planned. You will receive a detailed layout of your kitchen including cabinets, appliances, and countertops, and a parts list to make it easy to order.

Most Convenient & available to everyone in the continental US:

Planning from Your Home Make a 90-minute appointment, online or in your local IKEA store. Allow time for you to measure your kitchen and select products before your appointment. A professional IKEA Kitchen Planner will work with you interactively online to plan your dream kitchen. You will be able to discuss every detail and view your plan being created. Your planner will follow-up with a second session to make any changes.

Visit an IKEA store:

Planning from the Store You can make an appointment online or at your local IKEA store for a two-hour in-store appointment with one of our professional IKEA Kitchen Planners. Allow time for measuring your kitchen and selecting products before your planning appointment.

Prior to your appointment, you will need to:

- **Measure your space** – The first step is getting your kitchen measurements. Instructions will be provided if you want to do this yourself. But if you live in an IKEA service area, a professional IKEA measurement technician can visit your home to measure your kitchen for you.
- **Choose your products** – Start browsing our kitchen products now to get a better understanding of what you want. You must know this before your planning session to make it productive.

IKEA Kitchen Installation Service

What type of kitchen are you looking for?

Whether you're looking for a complete kitchen system like SEKTION that you can personalize any way you want, or a simpler kitchen that you can install in a day, we have what you're looking for. Here you have four different types of IKEA kitchens to suit different needs and wishes.

SEKTION kitchen system

Our SEKTION kitchen system includes cabinets in several different sizes to fit your room layout as well as your kitchen routines. The flexibility of the system offers endless choices, giving you the freedom to build a kitchen that's ideal for you and your space. We've also developed an extensive range of kitchen organizers and interior fittings allowing you to quickly see and reach even the things farthest back in the corner cabinets. In addition you have a vast choice in front expressions, countertops, lighting, sinks, faucets, knobs, handles and much more to personalize every inch of your kitchen. **See pages 10–89**

ENHET kitchen

Whatever shape your homes takes, your ENHET kitchen will fit right in. Find pre-combined and affordable solutions online and assemble them without special tools — they are simply clicked together. ENHET gives you great freedom to personalize your kitchen, offering open and closed storage, doors in different colors, as well as different accessories. **See page 90–115**

KNOXHULT kitchen

KNOXHULT comes in pre-packaged modules that you can arrange the way you prefer. Together with our appliances you can get a complete kitchen with all the basic functions you need at a very low price. Add sink, faucet, knobs and handles of your choice to complete the look. The simplicity of the pre-packaged modules makes the installation so easy that you can have a fully functional kitchen up and running the same day you bring it home from the IKEA store. **See pages 116–117**

KITCHENETTES

Not all of us have a lot of space or money for a traditional kitchen - and sometimes, we are just looking for a practical solution that isn't so complicated. Our kitchenettes offer all the ingredients for this very important function in clever, compact designs. Simply add TILLREDA small space appliances to customize your culinary space according to your needs. It's all there, personal, functional, affordable and easy to install. And guess what? Its easy to take it with you when you move. Simple as that. **See pages 118–123**

SEKTION KITCHEN SYSTEM

Endless possibilities

The modular design of SEKTION kitchen system is easy to install and gives you endless possibilities when designing your kitchen. Whether you have a taste for the traditional, love the minimalism in modern style or land somewhere in between, you'll surely find something that fits you.

To become truly beautiful, the kitchen has to be functional and take care of all your kitchen needs, too. With SEKTION you have the freedom to get the look you

want on the outside and keep everything in perfect order on the inside. Start by deciding the style of your dream kitchen by choosing the doors and drawer fronts, lighting, countertop, sink, faucet, knobs, handles and accessories that you like.

Door and drawer front styles

Flat front doors and drawer fronts

Flat front doors offer you straight lines and smooth, easy to clean surfaces, simplicity in its truest form. Choose from a wide variety of finishes, colors and materials.

Frame doors and drawer fronts

Frame doors and drawer fronts are rich in detail, with a crafted look and feel—they create a kitchen with a rustic and traditional look. All our frame door families have a matching glass door.

High-gloss doors and drawer fronts

Glossy surfaces suit everyone from the minimalist to the wild family with kids. Stains are no problem as they are just as easy to wipe clean as they were to make.

Doors and drawer fronts with integrated handles

You might not notice them at first glance — and that's the ideal! Integrated handles lend a minimalist and modern feeling to your kitchen.

Decorative moldings

Decorative moldings provides the finishing touch to your kitchen. They come in many different styles, but we have something for all of our door and drawer families. Use them to tie your style together, hide lighting or just as a decorative element.

You can choose how to mount them on your cabinets. Below we show the entire range and some different ways of mounting them, both above as moldings and below your cabinet, either wrapped around the whole cabinet or just between your cover panels.

SEKTION cabinets

Modular cabinets that fits your space

What does your dream kitchen look like? How much time will you spend in it and how will you use it? When it comes to kitchens, we're all different. We have different dreams, different needs and different preconditions. To meet this diversity, what could be better than a highly flexible kitchen system with cabinets that can suit everyone, and be planned in everywhere? Whatever the size of your home or family, with cabinets in different sizes, drawers with endless possibilities and interior organizers made to match, you can turn the kitchen of your dreams into the kitchen in your home.

MAXIMERA Drawers and drawer accessories

MAXIMERA drawers fully extend, and thanks to a built-in damper they always close softly and quietly. You have a complete view and you can easily reach the smallest of utensils even at the back of the drawer. MAXIMERA drawers are available in different sizes to give you plenty of options depending on your storage needs. You can also add inner drawers to fully utilize the cabinet space.

Lighting and sound for SEKTION

A brighter kitchen life

Good lighting is an essential part of any kitchen. That's why we offer integrated lighting products perfectly dimensioned to fit our kitchen cabinets. And they all contain long-lasting built-in LEDs which consume up to 85% less energy, produce much less heat and last up to 20 times longer than incandescent bulbs. Having IKEA integrated lighting installed in your kitchen is a great way to light your beautiful new countertops and pour light onto everyday tasks in the kitchen, as well as to show off your favorite dinnerware behind glass doors or to brighten up your utensils, spices, bowls and cookware in your drawers!

Planning and installing integrated lighting in your new kitchen is an investment you will enjoy for many, many years! Everyone agrees that great countertop lighting is a must for every successful kitchen. Adding lighting to your glass door cabinets is a great way to show off your most prized treasures, while also adding a wonderful sparkle to your space. And it may seem like a 'nice-to-have' at first, but when your integrated drawer lighting illuminates the instant you open a drawer, you'll agree it's a must-have that you deserve and will come to love! **Pre-planning is the key for easiest installation.

Get an even better kitchen experience with the ability to dim, turn off and turn on lights wirelessly. All you need is TRÅDFRI LED driver and STYRBAR remote control. Or use the DIRIGERA hub and Home smart app to control every beam of light with your smart phone. We call it IKEA Smart lighting.

Drawer lighting simplifies finding what you need even during those midnight kitchen raids. Opening and closing the drawer turns the light on and off automatically.

SYMFONISK speaker can be hung on a SYMFONISK wall bracket to save precious countertop space while providing all of the audio you love.

Countertop lighting should give you a clean, clear view of all the work you're doing in the kitchen.

Spotlights provide a focused light that is good for lighting smaller areas and behind glass doors.

MITTLED series

MITTLED has a compact design for both under cabinets and inside drawers. And **hardwiring is not necessary**

Countertop lighting

when installed with TRÅDFRI LED driver(s) and ANSLUTA power supply cord.

MITTLED LED dimmable countertop lighting Matches your cabinet sizes and features a compact design. LED life time approx. 25,000 hrs. Lamps are able to connect together for a seamless look and even task lighting across a run of connected wall cabinets. Lights are dimmable with TRÅDFRI LED driver, TRÅDFRI dimmer, and DIRIGERA hub, sold separately. **Note:** The VAGDAL connection cord is not included with MITTLED countertop lights, it must be purchased separately according to the number of connected lights you are using.

Only one VAGDAL connection cord is required per group of MITTLED countertop lights connected together. If installing a single MITTLED countertop light, one VIGDAL connection cord is needed for that unit. If connecting 3 MITTLED lights, 1 VAGDAL cord is needed.

The VAGDAL connection cords then connect to TRÅDFRI LED driver(s). The LED driver then connects to an electrical outlet using an ANSLUTA power supply cord, all sold separately.

MITTLED LED lighting strip for drawers In an IKEA kitchen you can have lighting inside all your drawers. Opening and closing the drawer turns the light on and off automatically. Must be completed with an LED driver. For drawer lighting, it is best to use a dedicated driver not connected to other lighting. Use either a TRÅDFRI driver coupled with ANSLUTA power supply cord or an ANSLUTA LED driver which already includes the power cord. All sold separately.

Why a dedicated driver? Drawer lighting must stay in an 'on' position so that the MITTLED lights on/off sensors operate properly. A dedicated LED driver for drawer lighting ensures there is no interference by other smart devices connected to TRÅDFRI drivers, such as dimmers, remote controls or wireless controls.

Cabinet lighting

TVÄRDRAG Cabinet lighting A lovely traditional cabinet lamp. The metal shade creates a direct light that illuminates your cabinets. If you want the lamp's light to be directed into your display cabinet, just angle the lamp head inwards. You can turn up to 6 light sources on and off simultaneously if you complete with ANSLUTA driver. If you also want to be able to dim, choose TRÅDFRI driver and STYRBAR remote control instead, sold separately.

YTBORG Cabinet lighting The lamp's slim and neat design goes with most styles and is perfect if space is limited between the top of your cabinet and the ceiling. You can easily direct the light where you like since the arm can be bent 180° and the lamp head angled 90°. You can turn up to 6 light sources on and off simultaneously if you complete with ANSLUTA driver. If you also want to be able to dim, choose TRÅDFRI driver and wireless dimmer instead. Sold separately.

Cabinet lighting illuminates your favorite kitchen doors and creates a cozy mood light in the entire kitchen.

SKYDRAG Countertop lighting series

SKYDRAG LED countertop lighting with sensor Must be completed with TRÅDFRI LED driver and ANSLUTA power supply cord, sold separately. You can connect as many LED light strips as you like, as long as the total wattage of the products does not exceed the maximum wattage of the connected driver(s). Add the DIRIGERA hub and IKEA Home smart app for wireless control through Amazon Alexa, Apple HomeKit or Google Home. Dimmable with TRÅDFRI wireless dimmer, sold separately.

TRÅDFRI and ANSLUTA series

STYRBAR Remote control With STYRBAR remote control you can dim your TRÅDFRI connected lighting without a wired installation. A magnet makes it easy to attach the remote control to the wall bracket. Requires 2-AA batteries. IKEA recommends our sustainable LADDA rechargeable batteries. Batteries are sold separately. Works with IKEA Home smart.

White	804.883.70
Stainless steel	504.636.15

DIRIGERA Hub for smart products With DIRIGERA hub and app you can control each light source individually, create different types of lighting settings, and control them by the IKEA Home smart app or personal assistant via Apple HomeKit, Amazon Alexa or Google Home.

White	505.034.14
-------	------------

TRÅDFRI LED driver To be completed with ANSLUTA power supply cord, sold separately. These drivers will pair with TRÅDFRI dimmer and STYRBAR remote control for wireless operation. You can connect up to 10 TRÅDFRI LED drivers in one installation.

Up to 10W Up to 3 light units per driver, 10W max	103.561.89
Up to 30W Up to 9 light units per driver, 30W max	603.426.61

With the DIRIGERA hub you can control all your TRÅDFRI driver connected lighting via the IKEA Home smart app or your voice assistant. Create moods and set scenes together with other IKEA smart lighting.

All non-battery operated lighting requires use of a transformer (LED driver) to operate. Light sources plug into an LED driver. The LED driver connects to an electrical outlet by way of either ANSLUTA power supply cord for “smart” set up, or ANSLUTA LED driver with power cord and switch for manual operation.

- For wireless or “smart” functionality, pair a **TRÅDFRI LED driver** and **ANSLUTA power supply cord**, sold separately.
- For basic on/off manual functionality, use the singular IKEA product **ANSLUTA LED driver with power cord**, sold separately.

RODRET Wireless dimmer/power switch Use the wireless dimmer to dim, turn on/off up to 10 light sources - all will behave in the same way. You can dim your lighting wirelessly and easily adapt the lighting based on activity. Requires 1-AAA battery, sold separately. See page 112 for LADDA rechargeable batteries.

Countertops

Your kitchen is the heart of your home, it's a room for everyone! How it performs and how it looks are two important factors. Even though doors and drawer fronts are the main style decision you make when updating your kitchen, your countertop can have a big impact on the overall look. However, the perfect countertop is not just about completing the look of your kitchen, it has an impact on its functionality too. When picking the right countertop there are many factors to consider, including your style, durability, maintenance, lifestyle and cost. Our countertops are available in pre-cut and custom-made as well as in durable materials, finishes and thicknesses. Each surface has unique properties, with differing levels of water, wear and heat resistance.

How to choose your countertop:

1

What's your budget?
A stylish look does not have to cost a fortune, our countertops are available in wide range of materials and expressions, pre-cut as well as custom-made to perfectly fit your style, needs and wallet.

2

What kind of material do you prefer? When deciding on material, consider how robust you need your countertop to be, how much you are prepared to look after it, and how you want it to look in your kitchen environment.

3

Custom-made countertops are made-to-fit your kitchen layout, you can order the exact size you need, as well as cut-outs for your sink, faucet and cooktop. Pre-cut countertops are available in different sizes, you can take them home today and cut to desired length.

Built to last

When we test our countertops we put them up against everything they'll face in your kitchen: liquids, oil, steam, heat, thumps, bumps and scratches. Once we're done we're so sure our countertops will last for many years to come.

25

Countertops have a free 25-year limited warranty. Exclusions apply. See [pages 140-141](#) or [IKEA-USA.com/warranty](#) for details.

Materials

Laminate

Laminate countertops are durable, affordable and easy to maintain, with lots of colors and expressions to choose from. Spills and grease are easy to wipe clean and the countertop keeps its beauty over time, making it a practical solution.

Wood

Countertops with a top layer of wood have all the qualities of solid wood, enhanced by modern technology. They are made with 1/2" layer of solid wood wrapped on particleboard. This increases the stability and makes them less likely to split or crack. They can be sanded down to remove minor scratches, and will keep their natural beauty over the years.

Quartz

Quartz is one of the hardest materials in nature, making the surface extremely durable and scratch resistant. Plus, the surface is smooth, non-porous and easy to keep clean.

Color overview

We offer pre-cut laminate countertops in two lengths. Choose between the many colors and expressions to find the perfect look. The laminate countertops can be cut into the length you need and finished with the edge strip included in the package.

Create a simple island from a couple of open cabinets with a durable laminate countertop that can withstand all the baking and preparing you can handle.

Pre-cut thick veneer wood countertops

Natural and durable, wood brings a warm feeling to your kitchen and makes each countertop unique. It ages beautifully and you just sand and treat it to keep it looking great.

Pre-cut thick veneer wood countertops have a layer of solid wood covering a particleboard core. They feel and look the same as solid wood. With this technique we can create new unique expressions, using less wood and reducing the impact on the environment. We pre-treat them with a hard wax oil, so you don't have to oil them when you get them or treat them at all until the surface starts to wear. They're available to take home today.

Natural and durable, wood brings a warm feeling to your kitchen and makes each countertop unique. With thick veneer, a 1/8" layer of wood covers a particleboard core to add excellent stability.

Thick veneer countertops come in the following crafted patterns: full plank, butcher-block, fine line and chevron.

The countertops are pre-treated with hard wax oil to create an easy-care surface for immediate use. Over time, it will only look better, gaining in character. They can be sanded and treated when needed, meaning that they will age gracefully.

Thick veneer countertops are available in pre-cut sizes that you take home today. They can be cut into the exact length you need and finished with the edge strip included in the package.

Ash

Ash is a blonde hard wood with a beautiful grain pattern. Ash is a tough and strong, yet elastic material with great resilience and finishing properties. It gets gradually darker with age. In its natural form it is heavy and gives a very solid feel.

Birch

Birch is fine-grained and pale in color with a satin-like sheen that darkens with age. It often has knots or heartwood in cream or light brown, which will give your countertop a unique and distinct natural look.

Oak

Oak wood is exceedingly strong, heavy and durable. It is an attractive light color with a prominent grain. Its color ranges from light brown to a rich reddish-brown and it darkens beautifully with age.

Walnut

Walnut wood is relatively heavy, hard and resilient. The natural color light brown to dark chocolate brown adds warmth to your kitchen decor. Walnut gets lighter in color with age. It has a rich variation in color and a decorative, curved grain pattern.

Big advantages of a custom-made countertop

Your custom-made countertop is made to fit your kitchen layout perfectly, with the least number of seams. You can order the exact length and depth you need for your kitchen island or bar solution as well as cut-outs for your sink, faucet and cooktop.

How to buy a custom-made countertop

1

Material and color

Choose a color that makes the kitchen your own.

2

The countertop profiles

Choose the desired profile for the edges. Depending on the material you've chosen for your countertop, you have different options.

3

Choose your sink

Choose the sink you want and if you want it top mounted or under-mounted.

4

Take measurements

Then start to measure to see what size and shape of countertop you need. If you would like help with this, or with anything to do with measuring your kitchen, our measuring service can come to your home.

5

We're here to help

To design your custom-made countertop get help from an IKEA co-worker in the kitchen department at your local store.

6

Order

To order your custom-made countertop, please contact an IKEA co-worker in the kitchen department at your local store.

How to measure your countertop

Start by measuring your countertop from the corner where it attaches to the wall. Make sure to make your measurements alongside the wall and always start from the same point. When measuring the depth, start from the wall and measure out. Don't forget to add 1½" for an overhang too.

If you need to measure for a freestanding countertop (for a kitchen island for example), simply start from one end and add 1½" extra for an overhang.

To measure for a sink start from the same point where you've taken your previous measurements and measure to the center of where you would like your sink to sit.

KASKER quartz custom-made countertops

When you choose a quartz countertop you get a work surface that’s extremely durable. It’s scratch resistant and can withstand heavy impact. We construct our quartz countertops with natural quartz crystals (one of the hardest materials in nature) and high-quality polymer resins which make the surface smooth, non-porous and easy to keep clean. You can also order quartz backsplashes to complement your countertop.

Sinks

A busy place in the kitchen

The sink and the area around it is one of the busiest places in the kitchen. You use it for everything from preparing food and rinsing vegetables, to storing dirty dishes and cleaning up. To make the activities as easy as possible, choose a sink and sink accessories that match your needs and the way you work in the kitchen.

How to choose your sink

01

How much space have you allocated for the sink? Our sink cabinets are 24, 30 or 36" wide.

02

Think about how you prepare food, but also how you clean up. Do you have a dishwasher or do you wash the dishes by hand? Do you need one bowl, two bowls or a sink with drainboard?

03

Complete your sink with sink accessories that help you organize the area in and around the sink, both when you prepare food and when you clean up. **See pages 83, 129-135.**

25

We test our sinks to ensure they can withstand the demands of everyday life in the kitchen. That's why all our sinks come with a free 25-year limited warranty (except FYNDIG). Find out more on **pages 140-141.**

Our range of sinks

Single bowl sinks

If space is an issue, one single bowl is a good option. Plus, in a big single bowl you can easily wash large pots and pans. Combine with sink accessories to make the bowl as functional as possible. **See pages 83, 129-135.**

Double bowl sinks

Having two bowls is ideal if you have a lot going on at the same time. For example, if one of the bowls is piling up with dirty dishes, you can still rinse off vegetables and the like in the other.

1½ bowl sinks

A one and a half bowl sink gives you the same advantages as a double bowl sink, but in a smaller area.

Sinks with drainboard

A sink with a drainboard is ideal for drying dishes as the sloping surface make excess water flow back into the bowl. Our sink with drainboard is reversible, so you can choose if you want the drainboard to the left or to the right.

Saving water at every step

Earth may be covered in a lot of water, but very little of it is drinkable and even less is accessible. No organism can survive without it, and no new water is created. It's constantly recycled, but our freshwater supply is overused; not evenly distributed; and impacted by pollution, contamination and climate change. That's why we equip all our kitchen faucets with a water saving aerator that reduces water use up to 40% — while maintaining the same pressure. We didn't invent aerators, but think they are an important example of how we can work together to save water for everyone's benefit.

Functions

Kitchen faucets with low spout
Kitchen faucets with low spouts always have the handle on top, and are ideal for small single bowl sinks.

LAGAN Kitchen faucet*

Kitchen faucets with high spout
The high spout makes it easier to wash dishes, including large pots.

DELSJÖN Kitchen faucet*

Kitchen faucets with pull-out spout
Rinsing dishes is easier with the pull-out spout. A counterweight makes the hose easily retract back into the kitchen faucet.

ÄLMAREN Kitchen faucet with pull-out spout*

Kitchen faucet with sensor
The kitchen faucet's sensor function is simple, hygienic and practical—perfect when you just want to fill a glass with water or rinse off your hands when cooking.

ENHET kitchen system

Plan less, live more

ENHET is easy to buy and equally easy to update if you need to, or simply feel like it. You can choose between ready-made combinations online and buy your favorite with a few clicks. All parts are easy to assemble, intuitively and without any special tools.

The playful design in different colors inspires you to adapt ENHET to reflect your personality. With a combination of open frames and closed cabinets you can display your favorite things and hide the rest. The ENHET kitchen units also come in different widths and depths, making them easy to adapt to a smaller space.

Helping you keep your kitchen utensils neatly organized and close at hand, the ENHET accessories include a hook rail that can be moved around without having to drill into the wall, a swivel shelf for smaller items and a hanging shelf insert that you simply hang in the grooves of an open frame to maximize storage space — no tools needed.

Open storage also provides a good overview of all your kitchen items, and you can keep the things you use the most on the shelves for easy access. With a mix of closed and open storage, it is possible to create a kitchen that doesn't only make preparing your everyday meals a breeze, but is a real eye-catcher that inspires you to cook and your friends and family to keep you company.

ENHET accessories for open frame

You can easily add ENHET accessories to extend the use of your combination. And best of all — you don't have to drill.

ENHET Hanging shelf insert 10×11×6". This insert adds a new dimension to your ENHET frame. It divides the storage space and makes room for more things in no time — simply hang it in the grooves of the frame and get organized. You don't need any tools and don't have to drill holes in the wall.

Anthracite	405.145.59

ENHET Swivel shelf 16×8". Tired of looking for those things that tend to disappear in the kitchen? You can easily solve this by attaching this handy swivel shelf to any of the wall frames in the ENHET series. You can find and reach the things you need by turning the shelf. Perfect to have as a spice rack to keep all the flavors close at hand when you are cooking.

Anthracite	205.145.60

Complete your combination with lighting

How to build

SKYDRAG LED cabinet lighting is easy to install by yourself.

- When you start building your system, you must first consider the widths of your cabinets. For example, for a cabinet with a width of 23½", you'll need the SKYDRAG lighting strip 23½" too.
- Choose the number of SKYDRAG lighting strips that you need.
- Add the TRÅDFRI driver. You can connect up to three or nine units to the driver, as long as the total wattage does not exceed 10W or 30W. TRÅDFRI drivers need to be connected to the plug with an ANSLUTA power cable.
- Add TRÅDFRI wireless dimmer or STYRBAR remote control to dim your lighting. Pair the dimmer to the TRÅDFRI driver and the entire combination will dim at the same time.
- Add the DIRIGERA hub to control SKYDRAG connected lighting from the IKEA Home smart app in different ways together with other TRÅDFRI lighting in your home.

KNOXHULT KITCHEN

When basic functions and low price matter

To make it easy for you, we've already combined ready cabinets with doors, countertops, shelves and drawers. All you have to do is to pick the finishing touches, like knobs, handles and appliances. On the next pages you'll see what choices you have.

KNOXHULT is functional and easy to plan. Pick the combinations you like, then choose appliances, sinks, faucet, knobs and handles. Done!

Base cabinets

KNOXHULT Base cabinet with doors and drawer
You can install a sink and also adjust the space in the cabinet to your needs with two adjustable shelves. The frame and fronts are coated with foil which gives a scratch-resistant surface that is easy to keep clean. You can easily mount the door front in the right position, because the hinges are adjustable in height, depth and width. Stands steady on uneven floors because it has small adjustable feet. The countertop is 3/8" wider than the cabinet. W72xD24xH36".

Kitchen islands, carts, stools and accessories

A kitchen easy to live in

Your kitchen isn't fully functional until everything in it has found a place of its own. With smart organizers and accessories, you'll find what you need, when you need it.

Utilize the full area in the kitchen, even the walls. With smart wall storage often-used items can be close at hand, at the same time you free up workspace.

Your best kitchen friends

Our carts and islands boost your storage space and kitchen functionality while adding a social focal point in your kitchen at the same time.

The sink area is a busy place. We have accessories with multiple purposes that can help you utilize the area in and around the sink, supporting the workflow both when preparing food and washing up.

KNOBS AND HANDLES

LIMITED WARRANTY
GENERAL CONDITIONS

What is limited warrantied?

The extent of the limited warranty given for each product is described alongside each product.

Duration of limited warranty

Each limited warranty lasts for the number of years stated against each product starting from the date of purchase.

What will IKEA do to correct the problem?

IKEA will examine the product and decide if it's covered under this limited warranty. IKEA will then, at its choice, either repair the defective product or replace it with the same or a comparable product. In these cases, IKEA will be responsible for the costs of repairs, spare parts, labor and travel for repair staff that IKEA incurs, provided that the product is accessible for repair without IKEA incurring additional expenditure to gain access. This will not apply in cases where repair work has not been authorized by IKEA. Any defected parts removed in the course of repair works will become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. IKEA will decide at its discretion, what will constitute an appropriate replacement.

Conditions for the limited warranties

The limited warranties are valid from the date of purchase at IKEA. The original purchase receipt is required as proof of purchase.

Exclusions

The limited warranties do not apply to products that have been stored or assembled incorrectly, used inappropriately, abused, misused, altered or cleaned with wrong cleaning methods or wrong cleaning products. The limited warranties do not cover normal wear and tear, cuts or scratches or damage caused by impacts or accidents. The limited warranties do not apply if products have been placed outdoors or in a humid environment or if the products have been used for non-residential purposes (unless otherwise stated). The limited warranties do not cover consequential or incidental damages. Some states do not allow the limitation or exclusion of incidental or consequential damage, so this limitation or exclusion may not apply to you. For details see the limited warranty conditions and description for every product.

Care instructions

To be able to rely on this limited warranty you need to follow the specific care instructions for every product.
► You will find all care instructions in the IKEA stores and on the IKEA website: IKEA-USA.com

General legal rights

This limited warranty gives you specific legal rights. This limited warranty does not, in any way, affect the rights given to you by law.

How to reach us if you need service:

Contact your local IKEA store.
► You will find the address and phone number in the IKEA catalog or at IKEA-USA.com. Save your sales receipt as proof of purchase. Proof of purchase is required for the limited warranties to be valid.
► To find out more, pick up the limited warranty folders in your local store.
