Gather around with GOKVÄLLÅ

Gather around with GOKVÄLLÅ

When creating GOKVÄLLÅ, designer Maria Vinka was inspired by the Ottoman tiles from the Blue Mosque in Istanbul. While mixing gold and silver with sharp geometric shapes, she used muted colors to add a bit of a Scandinavian touch. The result is a decorative collection of tableware and textiles with neutral tones and sparkling details.

Add a modern touch to your late-night celebrations with the teapot and kava cups in a lovely lavender-blue pattern. Or make your home even more inviting with festive floor cushions and ornate tealight holders in colors of gold and silver.

Let your home shine during the season of Ramadan!

Designer Maria Vinka

Maria Vinka is a Swedish designer working for IKEA since 1995. She has great respect for her Sami background and the importance of nature. Her design philosophy is to base an idea on a product's lifecycle and to not use more material than necessary.

"During a trip to Istanbul, I visited mosques decorated with beautiful, geometrically patterned tiles that made a strong impression on me. The lavender color in the GOKVÄLLÅ collection in combination with neutral tones and sparkling details is my interpretation of what I saw. If your cabinets are full of white modern plates, solid-colored textiles or porcelain with metal details, this collection has items that are sure to match and make your home ready for the party."

- Designer Maria Vinka

Break the fast in style

The teatime ritual is a great way to reconnect with family and friends while getting some energy to enjoy the rest of the evening. Serve your coffee, tea, and snacks with GOKVÄLLÅ tea accessories and serving bowls specially designed for the occasion. Take a sip from the white and blue kava cup and savour the taste and smell.

Connect people and rooms through textiles

How do you go from hosting six people to hosting twenty? Easy. Just add a pillow – or fourteen. Unite all rooms for your evening celebrations through geometric patterns and colors of gold, silver, and light lavender-blue. Fill the sofa with extra cushions that can easily be put on the floor or sprinkle the room with floor cushions. There should always be room for one more.
