BUYING GUIDE

Bed frames

A good day always starts with a good night
Feeling your best when you wake up starts with the right bed. In this buying guide, you will find all our beds, including bed frames with and without storage, upholstered bed frames, daybeds, loft beds, and bunk beds. You will also get an overview of our bed accessories, such as headboards and bed storage boxes.

Of course, a bed is not complete without a mattress and bed linens. You can test and find the best mattress for you in the mattress studio. The textiles department has a wide range of comforters, pillows and bed linens.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting IKEA-USA.com. For more detailed product information, see the price tag or visit IKEA-USA.com. All products shown require assembly. All textiles shown are imported.

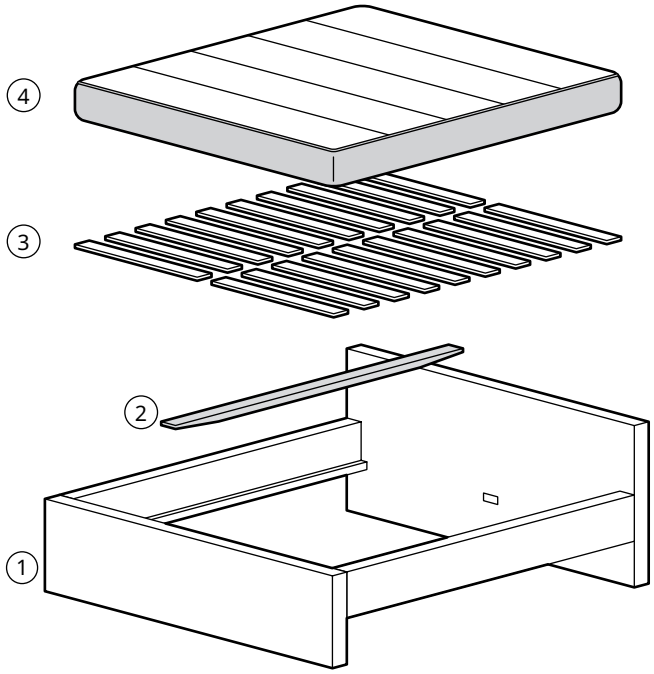

HOW TO BUY A COMPLETE BED

1. Choose a bed frame and size.

2. SKORVA center support beam is needed for most full, queen and king beds. It is picked up separately in the self-serve furniture area. For upholstered bed frames, the midbeam is included in the packaging.

3. LURÖY slatted bed base is needed for most twin, full, queen and king beds. It is picked up separately in the self-serve furniture area. For upholstered bed frames, day bed frames, loft beds and bunk beds the slatted bed base is included in the packaging.

4. Choose a mattress or use the one you have at home. You can find the best one for you in the mattress studio.

BED FRAMES

Bunk beds have sleeping for two — an upper bunk and a lower bunk. Loft beds provide sleeping for one, with space underneath for storage, play or study. Both are single beds.

Only children over age 6 should sleep in the loft bed or top bunk due to the risk of injury from falls. The loft bed and top bunk has a solid guardrail at a good height and minimal gaps in the rail for the safety of the sleeper. But the guardrail loses its function if the mattress it too high up in the bed to make the guardrail protective. So use a mattress that is the right thickness for a loft bed or top bunk. Complete the loft bed with a mattress in a matching size and the bunk bed with two twin mattresses. Slatted bed base is included and SKORVA mid beam is not needed for loft and bunk beds.

BUNK BED FRAMES

Complete the bunk bed frame with two twin mattresses. For safety reasons, each bed frame has a maximum mattress thickness (see below).

LOFT BED FRAMES

Complete the loft bed with a mattress in a matching size (twin or full). Each bed frame has a maximum mattress thickness (for safety reasons) and a minimum required ceiling height (see below).

STORÅ Loft bed frame Stained pine.
The ladder mounts on the right or the left side of the bed.
Maximum mattress thickness: 8½". Minimum ceiling height required: 8'10".

Remember! Never allow a child under 6 years old on the upper bunk.

DAYBED FRAMES

Daybeds extend to make two twin-size beds. We recommend using two twin mattresses no greater than 5½" thick, such as MINNESUND, MEISTERVIK and HUSVIKA. The slatted bed base is included and midbeam is not necessary.
