"For the TJÄRLEK collection, I wanted to add that little extra that allows you to easily create a lovely and inviting table setting for all kinds and sizes of festive occasions. The objects are inspired by the happiness I felt as a child in the spring when nature bursts with colors and comes to life. Like how the shapes of the bowl and the plate are reminiscent of the different stages of the flower, from a small bud to being fully in bloom."

Designer **Hanna Grann Dalrot**

When designer Hanna Gran Dalrot created these patterns, she started by painting them with watercolors to achieve an organic feel and a sheer, almost transparent, effect. The color shifts are also seen on the glasses and vases in the collection.

There's always room for more bunnies

After a long winter, it's time to decorate your home with bright colors and playful shapes that match the season's mood. Why not decorate with spring's eternal icons?

The egg cup wasn't initially designed to resemble a rabbit. However, when designer Marta Krupińska created the blue bunny bowl, the design team loved it so much that they decided to extend the design to the egg cup as well. And so, the little rabbit family was born.
