

Buying guide

HAVSTA

Storage series

Care

Wipe clean with a cloth dampened in a mild cleaner.
Wipe dry with a clean cloth.

Glass: Wipe clean with a cloth dampened in water or window-cleaner. Wipe dry with a clean cloth.

Good to know

You can convert any stackable unit into a standalone by adding the plinth in the compatible size (sold separately) or mount a stackable unit on a 18½" deep cabinet to create a vertical combination.

Assembly

Two people are needed for assembly of this furniture.

Safety

Secure It! Prevent tip-over injury.
Furniture with included restraints must be secured to the wall according to the assembly instructions.

Different wall materials require different types of hardware.
Use hardware (sold separately) suitable for the walls in your home.

When stacking modules to create combinations please follow the principle of deepest depth (18½") in the bottom, shallow depths (13¾") on top.

For safety reasons, HAVSTA units are not to be hung on a wall.

Tempered glass should be handled with care. All glass is fragile and a damaged edge or scratched surface can in exceptional cases cause the glass to suddenly crack and/or break.

Numerous possibilities and combinations

Truly versatile HAVSTA series in solid pine gives you a number of possibilities and combinations in different sizes – and with different features and looks depending on your living space, needs and taste.

All the features you need

Display the items you are proud of behind the glass doors or in shelving units and hide other things in the closed cabinets. Combine with a TV bench that keeps cables hidden, and why not to complete the look with one or more matching coffee tables?

Flexibility

Choose standalones or go for one of the many combinations. Add units over time or rearrange the entire combination to adapt to your changing needs – regardless if it's your family or souvenir collection that grows.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting IKEA-USA.com. For more detailed product information, see the price tag or visit IKEA-USA.com. All products shown require assembly. All textiles shown are imported.

How to build a vertical combination

Haven't found what you were looking for?

You can also design your own HAVSTA combination or customise an existing one by simply adding or removing units. To create your own vertical combination, please refer to this guideline.

31 $\frac{7}{8}$ " wide combination

Step 1. Select 18 $\frac{1}{2}$ " deep cabinet.

Step 2. Combine it with one of three different 3 $\frac{3}{4}$ " deep stackable units.

47 $\frac{5}{8}$ " wide combination

Step 1. Select 18 $\frac{1}{2}$ " deep cabinet with sliding doors.

Step 2. Combine it with 13 $\frac{3}{4}$ " deep stackable unit with sliding doors.

Would you like now to convert any stackable unit into a standalone? You can do it by adding the plinth in the compatible size (sold separately).

Vertical combinations – all the parts

Integrated lighting

Conventional or connected IKEA smart lighting?

Good lighting makes life easier and helps you set the right mood. The options here are made for HAVSTA. Light up your favorite pictures and collections, and enjoy the cozy reflected light. And of course lighting makes finding things easier, on shelves or even inside cabinets. The TRÅDFRI LED driver makes MITTLED, TVÄRDRA, and YTBERG smart and gives them the ability to be wireless dimmed with STYRBAR remote control or RODRET wireless dimmer. Or connect your smart lighting with DIRIGERA hub and control any light, together with other smart

TVÄRDRA cabinet lighting The traditional expression of the lamp goes nicely with the cabinets in the BESTÅ, HAVSTA and HAUGA series. The metal shade creates a direct light that illuminates your cabinet or wardrobe. If you want the lamp's light to be directed into your display cabinet, just angle the lamp head inwards. Provides a focused light that is good for lighting smaller areas. You can dim your lighting wirelessly and easily adapt the lighting based on activity. The bracket makes it possible to slide the lamp back and forth. You easily attach it with screws – or with double-sided adhesive tape on glass and metal surfaces. The LED light source consumes up to 85% less energy and lasts up to 20 times longer than incandescent bulbs. You can turn up to six light sources on and off simultaneously if you complete with ANSLUTA LED driver. If you also want to be able to dim, choose TRÅDFRI driver and STYRBAR remote control or RODRET wireless dimmer instead, sold separately.

Black, 1.5W	405.168.41
-------------	------------

YTBERG cabinet lighting The lamp's slim and neat design goes with most styles and is perfect if space is limited between the top of your wardrobe or cabinet and the ceiling. You can easily direct the light where you like since the flexible goose-neck arm can be bent and angled – perfect when it's time for homework, arts and crafts or cuddling up with a good book. Spreads a soft light that creates a cozy atmosphere in the room. The bracket makes it possible to slide the lamp back and forth. You easily attach it with screws – or with double-sided adhesive tape on glass and metal surfaces. The LED light source consumes up to 85% less energy and lasts up to 20 times longer than incandescent bulbs. You can easily direct the light where you like since the arm can be bent 180° and the lamp head angled 90°. You can turn up to six light sources on and off simultaneously if you complete with ANSLUTA LED driver. If you also want to be able to dim, choose TRÅDFRI driver and STYRBAR remote control or RODRET wireless dimmer instead. Sold separately.

-----	------------

DIRIGERA Hub for smart products. DIRIGERA hub is the heart of a smart home as it enables you to connect and control your smart products in the IKEA Home smart app. You can control your smart home using one or multiple mobile and tablet devices – just download the app to each one. DIRIGERA hub requires a Wi-Fi network and connects to your router with the provided cable. Together with the IKEA Home smart app, the DIRIGERA hub brings the most benefits to your smart home.

White	505.034.14
-------	------------

STYRBAR remote control. STYRBAR remote control allows you to control multiple light sources with a click. Create atmosphere by dimming and adjusting color and warmth of the lights. We care just as much about our planet as you. That's why the remote control is best powered with LADDA rechargeable batteries, 2-AAA. Sold separately.

Stainless steel	504.636.15
White	804.883.70

RODRET Wireless dimmer/power switch Now it's really easy for anyone to use smart lighting. With RODRET wireless dimmer you can control your light sources – turn on, turn off and dim so you always have the right light and mood at home. Requires 1-AAA battery. Sold separately.

805.598.00

Please note that HAVSTA cabinets do not have pre-drilled holes for inner lighting. In order to attach lighting, you need to drill the necessary holes in your unit.

How to choose integrated lighting

Now you can choose cabinet lighting placed on top of the cabinet to help you see what's on the top shelf it also provides a nice and cozy atmosphere in the entire room when the cabinet doors are closed. A perfect choice if there is little space between

the top and the ceiling, and the spotlight brightens up the inside of your cabinets and creates cozy mood lighting under the shelf. You can even connect to IKEA's Smart lighting using the remote control or wireless dimmer and DIRIGERA hub.

Basic parts

Smart solution

Over the cabinet lighting

TVÄRDRAG and YTBERG are cabinet's best friend – it lights things up and spread a soft light that create a cozy atmosphere in the room. It also provides a focused light that is good for lighting smaller areas. Use it on top of a wardrobe in the

bedroom, or together with storage in the living room, kitchen or hallway, a perfect choice if there is little space between the top and the ceiling.
