Storage system

GOOD TO KNOW

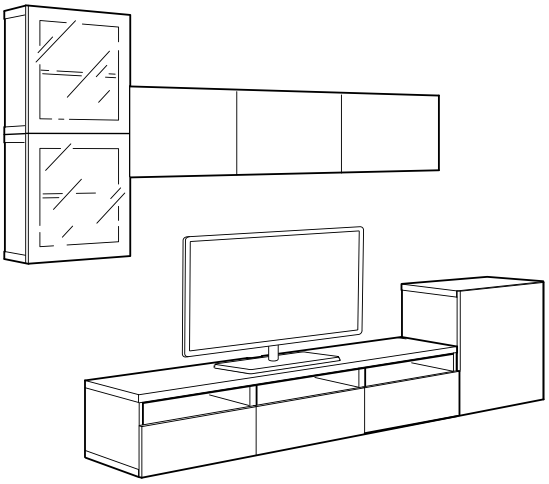

Tempered glass should be handled with care. All glass is fragile and a damaged edge or scratched surface can in exceptional cases cause the glass to crack suddenly. However, it will only break into small pieces, never into sharp fragments. Avoid collisions from the side — this is where the glass is most vulnerable.

SAFETY

Secure It! Prevent tip-over injury. Furniture with included restraints must be secured to the wall according to the assembly instructions.

Different wall materials require different types of hardware. Use hardware (sold separately) suitable for the walls in your home.

Measure the depth and width of your TV. The measurements should be less than those of the TV furniture.

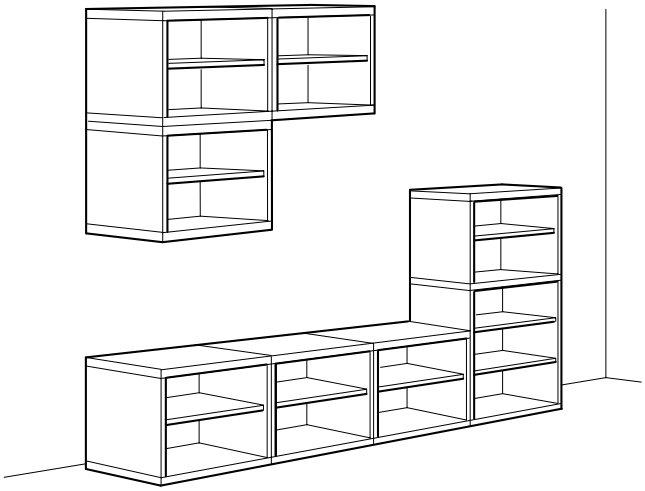

Good-looking storage for a great-looking living room

BESTÅ is specially designed to take care of all your storage needs — and to look good while doing it. So you can use it to make your living room both great looking and practical. It gives you plenty of room for everything — from your TV, gaming consoles and sound system to your DVDs and books. Choose between a high, low or wall-mounted combination. You can even choose a combination with panel doors to hide away clutter or glass doors to show off your favorite things. BESTÅ comes in many different colors and finishes so it's easy to find the right one for you.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting IKEA-USA.com. For more detailed product information, see the price tag or visit IKEA-USA.com. All products shown require assembly. All textiles shown are imported.

CUSTOMIZE YOUR OWN BESTÅ

The BESTÅ system is designed to be adaptable and flexible. You can select and arrange the BESTÅ parts in a way that suits your particular space, lifestyle and taste.

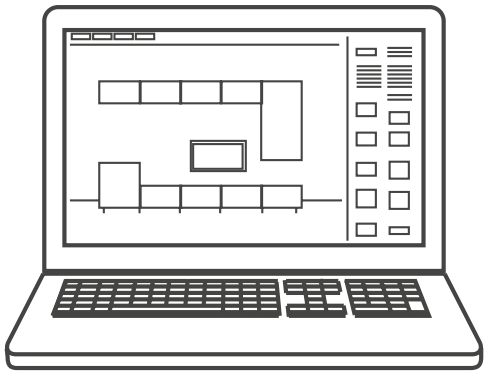

We have a wide range of pre-designed BESTÅ combinations to choose from in the store and on IKEA-USA.com/BESTA. If you do not find a combination that you like, or if you would like to customize one, use our BESTÅ storage planner at IKEA-USA.com/BESFaucetlanner

By using the BESTÅ storage planner, you can customize one of the pre-designed BESTÅ combinations or create one that is all your own!

The planner allows you to play around with frames, doors, shelves, knobs, colors, etc. to create the perfect storage and media solution that fits your specific needs and taste.

When you are ready with your BESTÅ combination, the planner helps you to calculate the price and allows you to print or save a list of products that you can bring to your IKEA store or use to buy the products online.

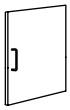

In the BESTÅ area of the IKEA store, you will find planning stations where you can use the BESTÅ storage planner. Or visit the BESTÅ storage planner online at **IKEA-USA.com/BESTAplanner**

BESTÅ ACCESSORIES

BESTÅ Suspension rail 23⅜". You need a suspension rail to be able to wall mount BESTÅ frames. The suspension rail works as reinforcement and makes it both easy and safe to mount BESTÅ frames to a wall. The rail needs to be attached to a wall stud. It has several holes so that it can be placed over a stud and still be located where you want to place your BESTÅ frame. The included connector makes it easy to hang several frames next to each other and align them at exactly the same height. 23⅜" wide frames require one BESTÅ suspension rail. 47¼" wide frames require two BESTÅ suspension rails. Note! The suspension rail cannot be used with BESTÅ TV units. Ensure that you have a minimum of 2" between the top of the frame and the ceiling. This is needed to be able to mount the frame to the suspension rail. Included in the price in all wall-mounted combinations.
