New at IKEA
April 2020
Meet our new products
Welcome to April at IKEA

This summer is all about relaxing and indulging yourself in lazy moments. To do so, we have some exciting new products to get you in the mood. Like our neat recliner that lets you lean back and enjoy some me-time or our many textiles that give the home a vibrant summer feeling. With patterns ranging from tropical to graphic, this month brings new duvet covers, cushion covers and curtains to the range. Even the baby's nursery and teen's bedroom get a summer update with new textile series.

Other highlights include a selection of lamps spanning from a retro-inspired series to lamps made of bamboo. We’re also launching a cotton rug that’s the result of finding an alternative to oil-based rugs, while our sustainability focus continues through a social entrepreneur’s initiative in India that gives us some beautiful cushion covers. April also welcomes a unique wall clock, a playful shower curtain and a swivel chair with some retro flair.
SKOGSFIBBLA Duvet cover

Dream away to faraway places under the sun-bleached print of SKOGSFIBBLA duvet cover. Featuring a bird of the tropics among lush greenery and exotic plants, the duvet cover captures the summer mood perfectly. It keeps nights comfortable in fresh breathable cotton from more sustainable sources.
SKOGSFIBBLA Twin duvet cover set $19.99/2pcs 504.593.26 Other sizes available, prices vary.

With SKOGSFIBBLA duvet cover you can sleep comfortably in fresh, breathable cotton that gets softer with every wash.
**VATTENFRÄNE Duvet cover**

This summer is all about patterns, including retro-inspired ones. VATTENFRÄNE duvet cover has a graphic pattern in purple and white with clear influences from bygone days. The fabric, however is very in line with our times, because it's made of 100% cotton from more sustainable sources.
Starry flowers come together in an expressive geometric pattern with retro vibes in VATTENFRÄNE duvet cover.
GATKAMOMILL Shower curtain

Give a tropical look to the bathroom with GATKAMOMILL shower curtain. The leafy pattern in turquoise and white fits right into the season's mood. It comes with an air of playfulness made from 100% recycled polyester.
Leafy and playful, GATKAMOMILL shower curtain keeps water where it's wanted.
GRACIÖS 8-14 textile series

Tweens and teens can now delight in a vibrant textile series full of summer mood. Featuring colorful patterns with a mix of photo prints and graphics, GRACIÖS series includes duvet covers, rugs, cushion covers and a cushion. The duvet covers are made with cotton or a cotton/lyocell mix, where all cotton used in our products comes from more sustainable sources.

In line with our agenda of reducing plastic, we have removed all extra packaging material and plastic. Instead we use paper bands and boxes, while the premium duvet cover is packaged in a cotton bag made of waste from the production of the same duvet cover.
Decorative in their own right, GRACIÖS cushion and cushion cover in velvet are perfect for tired little heads, while the rug in complementing colors brings softness underfoot.
Swaying palm trees on the vibrant GRACIÖS duvet cover get the bedroom ready for summer.
RÖRANDE Baby textiles

Bring a tropical touch to the baby’s nursery with RÖRANDE baby textiles. This is a colorful and exotic series that includes duvet covers, a blanket, towel and more. With friendly crocodiles or cuddling flamingos mixed up with more graphic prints, there’s plenty of color variations to create a unique nursery. And of course, it feels good to know that all cotton used is from more sustainable sources.
From a duvet cover with cuddling flamingos to a blanket with friendly crocodiles, RÖRANDE baby textiles add some exotic touches to the nursery.
Mixing up strawberries, crocodiles, oranges and more, the new RÖRANDE bed linen set gets the crib ready for the new family member. It's a perfect gift for new parents too!
**GISTAD Recliner**

For sitting back and relaxing or maybe even napping, GISTAD recliner is a neat new armchair in our range. It's so clever, it comes flat-packed which makes it easy to bring home where it hardly requires any tools in assembly. Still, you can count on it for many years to come, as the reclining mechanism comes with a 10-year limited warranty. Choose between a sophisticated dark red color or classic black.
Create a place for some me-time in GISTAD recliner that you can set to three positions – upright, leaning back and full recline – making it easy to adapt to various activities.
MARTORN Curtains

Furnish the home with retro vibes in the air this summer by dressing the windows with this joyful style. MARTORN curtains have a multi-colored graphic pattern that looks like it's taken from the 1960s. The curtains express personal taste, while creating some privacy.
Full of colorful retro style, MARTORN curtains let in some outside light while creating a cozy atmosphere in the room.
BINGSTA Armchair

Celebrate your own quiet time with BINGSTA armchair. Its enclosing back panel and rounded armrests create a comfortable nook for reading, knitting and enjoying me-time. You can also create a cozy corner for chatting and relaxing with loved ones by putting two armchairs close together. Good to know: BINGSTA is suitable for business use as well.

You can choose between low back and high back versions and two colors: a subdued and elegant gray or a trendy shade of dark yellow.
This modern armchair is an easy way to update the look of your home interiors. With its sleek black legs contrasted with the rounded forms of its seat, arms and back, BINGSTA is definitely a talking piece.
GUNRID Curtains

These curtains have superpowers! Meet GUNRID – a pair of beautiful curtains that purify air in the home. The innovative technology consists of a mineral-based photocatalyst coating that is applied to the textile. When activated by daylight, it breaks down common indoor air pollutants. Not only that, the fabric is made out of recycled PET-bottles, so it’s good for the environment too.

Not many people know that air pollutants can also be found inside the home. Examples include nitrogen oxides from combustion fumes from gas cooking, and solvents like formaldehyde which seep from plastics, paints and furnishings.

“Besides enabling people to breathe better air at home, we hope that GUNRID will increase people’s awareness of indoor air pollution, inspiring behavioral changes that contribute to a world of clean air,” says Lena Pripp-Kovac, Head of Sustainability at Inter IKEA Group. “GUNRID is the first product to use the technology, but the development will give us opportunities for future applications on other textiles.”

What’s wonderful about GUNRID is that it doesn’t require electricity to reduce indoor air pollution. Moreover, it is self-cleaning, meaning that you can save water, energy and money by reducing the number of washes.
Designed with experts

We worked closely with universities, innovators, air quality experts and suppliers to develop the GUNRID technology. When the fabric gets in contact with daylight, it breaks down common indoor pollutants.
KLARAFINA & MOAKAJSA
Cushion covers

Our new pink and green KLARAFINA and MOAKAJSA cushion covers are not only pretty to decorate with, featuring beautiful embroidery and tassels or pompoms. The most exciting thing about them is their story. Handmade by skilled artisans in India, the cushion covers come from a social entrepreneur’s initiative that provides long-term livelihood for female artisans. The cushion covers were created in collaboration with the designer Akanksha Deo, who shares the vision behind the products:

“We agreed to create the cushion covers’ patterns in two ways – embroidery for MOAKAJSA and weaving using a handloom for KLARAFINA. Both are decorated with handmade tassels. Although the design is simple, a 3D effect is created that makes you want to touch the surface. I hope both you and your wallet like the fine handicraft.”
The embroidery, tassels or pompoms make extra decorative and tactile details on KLARAFINA and MOAKAJSMA cushion covers, which are two-sided and made of 100% cotton from more sustainable sources.
RANGSUTRA, India, gathers a total of 2000 artisans in small production co-operatives near their homes in the remote regions of Rajasthan and Uttar Pradesh to support livelihoods and local handicraft traditions. Over 1070 people here get a job through the IKEA productions, which has resulted in several collections since the start of the collaboration in 2013. In the photo, artists Dhinya and Teeja are seen in active collaboration with the designer.

“We wanted to prove that genuine handicraft doesn’t have to cost a fortune. Working side by side with the skilled artisans was the key to success.”

– Akanksha Deo, designer
Thanks to our joint efforts more people have the chance to earn a decent living – and IKEA, tapping into unique handicraft skills, gets to offer our customers one-of-a-kind products. It’s a win-win if ever there was one. In the photo, artisan Sahji is seen working on MOAKAJSA cushion cover which is hand embroidered with handmade pompoms.

The fabric of KLARAFINA cushion cover is woven in a handloom and the tassels along the edges are also handmade.
NÄBBFLY & GRIMHILD Cushion covers

Here is an easy and affordable way to refresh the sofa or a bed with the season's look. NÄBBFLY cushion cover brings a colorful tropical bird print home, while GRIMHILD cushion cover offers a black and natural abstract pattern. Made of 100% cotton from more sustainable sources, they give plenty of style and extra comfort too.
Refresh with a touch of the tropics using our new cushion covers. From an exotic bird in lush greenery to an abstract black and natural pattern, both bring some wilderness home!
**TIPHEDE Rug**

When looking for a natural alternative to oil-based rugs, we came up with TIPHEDE rug. It’s made with cotton from waste of yarn production, so it uses no new raw materials and helps reduce climate impact. In its natural/off-white color, the beautiful flatwoven rug can fit in everywhere. It’s not only kinder to the environment, but also to the wallet at its incredibly low price.
TIPHEDE rug is made of 100% recycled cotton. It means you can have a genuine and natural feeling under your feet without too large an impact on your wallet or the environment.
VINDERÖD Rug

When designing VINDERÖD rug, we worked in a whole new way together with weavers and suppliers. Following a brief, the design was created by second-generation rug weaver Naushad Ali in India. Communicating the weaver’s name and signature on the label of the rug is part of our new weaver’s design collection, and something we hope will create a feeling of joy when buying the rug. The rug itself brings a lot of cheerful feelings to the home with its checkered pattern flatwoven in wool. It’s been inspired by Rangoli, an Indian art form where colorful patterns are created on the floor or ground by family members during festivals and special occasions.
The cheerfully checkered VINDERÖD rug is made of wool so it's naturally soil-repellent and very durable.
MISTERHULT Lamps

Invite some nature into the home with MISTERHULT lamps in bamboo. Handmade by weavers in Vietnam, there's a pendant and table lamp to furnish with. Bamboo is a rapidly growing, renewable and biodegradable material. In the lamps, both the lighter and darker parts of bamboo have been used, allowing 65% of the raw material to be used instead of 20%. This makes the lamps more sustainable, while their covered base gives a softer, cozier light.
MISTERHULT lamps. Pendant lamp $59.99 404.410.25  Table lamp $29.99 904.376.34

In compliance with California Title 20 regulations, lighting prices and features may vary in the state of California. Please see your local IKEA store for details.

The covered base in MISTERHULT lamps gives a softer light which is great for mood lighting or when the pendant lamp is placed over a dining table.
SKAFTET Arched floor lamp base

With a dramatic design, SKAFTET arched floor lamp base makes a striking centerpiece in a room. The lamp is great for providing overhead lighting where there's no ceiling outlet. It can be combined with different lamp shades to get the right expression and can be changed over time. The lamp base is ideal for sliding under armchairs or the sofa, saving floor space and keeping it out of the way.
SKAFTET floor lamp base provides overhead lighting – with no ceiling outlet needed. Combine it with any lamp shade to create a personal lamp.

SKAFTET Floor lamp base, arched $59.99 704.055.30  RINGSTA Lampshade $16.99 704.053.61

In compliance with California Title 20 regulations, lighting prices and features may vary in the state of California. Please see your local IKEA store for details.
SIMRISHAMN Lamps

With a whiff of retro style, SIMRISHAMN lamp series comes with white opal glass domes on a chrome-plated frame. The domes give a nice diffused mood light which works perfectly in a bedroom, living room or dining context. The series is available as a floor, pendant, table, table/wall lamp and a 7-arm chandelier. Whether hanging or standing, the lamps with several bulbs can give a lot of light output and just as much style!
Switch on the mood with SIMRISHAMN lamps that come with a whiff of retro style.
Use SIMRISHAMN table lamp as a standalone eye-catcher or mix it with other lamps in the series.

SIMRISHAMN Table lamp $29.99

In compliance with California Title 20 regulations, lighting prices and features may vary in the state of California. Please see your local IKEA store for details.
LOBERGET/BLYSKÄR Swivel chair

With a hint of retro style, Loberget/Blyskär swivel chair embodies the IKEA approach that design, comfort and quality all come together, and here at an incredibly low price. The simple, straightforward design can fit anywhere in the home, while offering what you'd expect from a desk chair — swivel function, height adjustment and casters. Add PYNTET seat pad for extra comfort, warmth and expression.
LOBERGET/BLYSKÄR Swivel chair $25 793.318.65
PYNTET Seat pad $TBD 100% polyester. Dark gray 304.732.05 Available June 2020

Add PYNTEN seat pad to the new swivel chair for extra comfort, warmth and expression. With an anti-slip underside, it keeps the correct position.
STURSK wall clock

A wall clock is both practical to have within sight, and a chance to add some unique style. STURSK wall clock will definitely be an eye-catcher in any room with its retro influence and pendulum moving back and forth. It's a modern take on the old grandfather clock!
With gold-colored details and the pendulum swinging back and forth, STURSK wall clock is sure to grab the attention in any room.
**BUSKBO Magazine stand**

Keep magazines and books organized and easy to find with BUSKBO magazine stand. Handwoven in rattan, the stand is airy but sturdy. You can easily lift it and carry it with you to another reading corner of the home. As rattan is a living material, each magazine stand is unique, gaining character over time. It’s a great way to bring a bit of nature into the home!
As rattan vines shift in color and shape, every BUSKBO magazine stand becomes unique.
