Office, conference, gaming, home and children's chairs

10

ALEFJÄLL, FJÄLLBERGET, FLINTAN, GRÖNFJÄLL, HATTEFJÄLL, JÄRVFJÄLLET, LÅKTARE, LÅNGFJÄLL, MARKUS, MULLFJÄLLET, SMÖRKULL and VALLFJÄLLET office chairs and LIDKULLEN active sit/stand professional stool include a free 10-year limited warranty. For details visit [IKEA-USA.com/warranty](https://www.ikea-usa.com/warranty).

Sit perfectly for your activities

A great sitting position helps you feel more creative, energetic and efficient. Start with who you are and how you'll use the chair. If you work from home for shorter periods, basic adjustable functions may be enough. For full-time work in the office, you'll need additional chair settings and more support for your arms and head. Love to game? Choose a gaming chair that helps you perform at your best. And for the younger ones, we have chairs adapted for drawing and doing homework.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting [IKEA-USA.com](https://www.ikea-usa.com). For more detailed product information, see the price tag or visit [IKEA-USA.com](https://www.ikea-usa.com). All products shown require assembly. All textiles shown are imported.

Good to know

The human body is made to move, so ideally, your workspace should give you the choice of sitting, standing or leaning, allowing you to change positions often.

Sitting

1. You should be able to stretch your legs under the table and turn 90° to the left and right. The hips and knees should be at an angle of approx. 95-100° with your feet flat on the floor. If you share the chair with other people, the height adjustable seat allows all of you to sit comfortably.
2. It doesn't matter if you're short or tall. With an adjustable seat depth or a height adjustable backrest you can try different depths and heights and get exactly the support your legs and back need.
3. A chair with tilt function makes it easy to change sitting position, regardless of whether the tilt function is in the seat or the backrest – or in both places.
4. The lumbar region is where we usually feel the first onset of tiredness. A chair with built-in lumbar support relieves pressure on your back.
5. Armrests reduce strain on arms and shoulders. Adjustable armrests reduce strain even more – regardless of how tall or short you are. Make sure that the armrests don't prevent the chair from being drawn close to the desk, and that they don't restrict your movements.
6. If you've been sitting at your desk for some time, it may feel nice to lean back and change your position for a moment. With a headrest on your chair, your head and neck also get some well-deserved relaxation.

Leaning

A standing support enables a position between sitting and standing, and it's ideal when you have a height adjustable desk.

- Provides freedom of movement for your upper and lower body.
- Activates and strengthens your body's core muscles.
- Gives you an open posture which improves your circulation and metabolic rate.

Standing

Don't forget to stand up as well. Alternating between sitting and standing is good for you circulation and productivity. Check out our height adjustable desks since they're ideal for alternating between sitting, leaning and standing.

Good to know

Height adjustable seat; for a comfortable sitting posture regardless of body height.

Height-adjustable backrest; provides support in all the right places and helps your body to maintain a naturally good posture.

Adjustable lumbar support; helps maintain the correct posture while sitting which reduces strain on muscles on your lower back.

Adjustable seat depth; easy to adapt for increased support to your thighs and back.

Adjustable headrest depth; adjust the depth position of the headrest to fit your needs, reducing strain on the neck and shoulders.

Adjustable tilting neck support; adjusting the headrest angle for optimal support and comfort reduces neck muscle strain and prevents discomfort during prolonged sitting.

Adjustable headrest height; allows for proper alignment of the head and neck, reducing the risk of discomfort from prolonged sitting.

Armrests; provide support for the upper part of your forearms and reduce strain on the back and shoulders.

2D adjustable armrests; height and width adjustable armrests enable a relaxed position for arms and shoulders and reduce the risk of tension.

3D adjustable armrests; height, width, and depth adjustable armrest helps you find the most comfortable and supportive position for the arms and shoulders, leading to improved posture and reduced fatigue.

Manual tilt tension; allows you to adjust the resistance to suit your movements and weight.

Automatic tilt tension; your body weight determines how much resistance the backrest offers.

Synchronized tilt mechanism; allows the chair to move with you. The backrest moves more than the seat when you lean back, so torso/hips open up. This improves circulation and keeps energy levels up.

Tilt lock; allows you to lock the tilt in the upright, the lowest position and different positions in-between.

Removable washable seat cover; easy to keep clean and fresh, as you can take it off and machine wash it.

Removable washable backrest and seat cover; the cover is easy to keep clean and fresh, as you can take it off and machine wash it.

Safety casters

Chairs should stay where you leave them and not roll away on their own. That's why we put safety casters on our chairs. The casters have a built-in pressure-sensitive brake mechanism so that they roll freely and easily when you sit on the chair – and brake when you stand up. Note that even though the casters don't roll when braked, they can still slide on the floor if the chair is pushed.

Office Chairs

10

SERVICES

IKEA products are designed to be taken home and assembled by you. That way, you'll save the most money. But if you would like some help, we can offer a range of services. Assembly and delivery services fulfilled by an Independent Service Provider. Contact your local IKEA store or visit the IKEA website for details: [IKEA-USA.com/services](https://ikea-usa.com/services)

DELIVERY SERVICE

Most of our products are designed and packaged so that you can take them home yourself. If you prefer, we can arrange for delivery of your purchases directly to your home or business. Same day, next day or same week deliveries are available. We can also arrange for delivery at a later date if you would like.

TASKRABBIT ASSEMBLY SERVICE

All IKEA products are designed to be assembled by you, but you don't have to. We've partnered with TaskRabbit to connect you with a network of independent 'Taskers' who can provide quick and convenient assembly and mounting services for your IKEA purchases made online and in stores. You can schedule assembly service for as soon as the same day, with the Tasker of your choice. Visit TaskRabbit.com/IKEA or see a co-worker for more details.

There's more than one way to pay

We accept credit, debit and IKEA Gift Cards in our stores. We also want you to have the home you dream of; that's why we've got additional financing options for you to explore. For more information about our financing options, visit IKEA-USA.com/creditcard

Services and prices may vary, please see IKEA-USA.com/services or talk to us in your local IKEA store.
