Care

Wipe clean with a cloth dampened in a mild cleaner. Wipe dry with a clean cloth.

Glass: Wipe clean with a cloth dampened in water or window-cleaner. Wipe dry with a clean cloth.

Good to know

Tempered glass should be handled with care. All glass is fragile and a damaged edge or scratched surface can in exceptional cases cause the glass to suddenly crack and/or break.

You can mount a stackable unit on a 18 1/2" deep cabinet to create a vertical combination. Save the included plinth if you want to convert the stackable unit to a standalone at a later stage.

Two people are needed for assembly of this furniture.

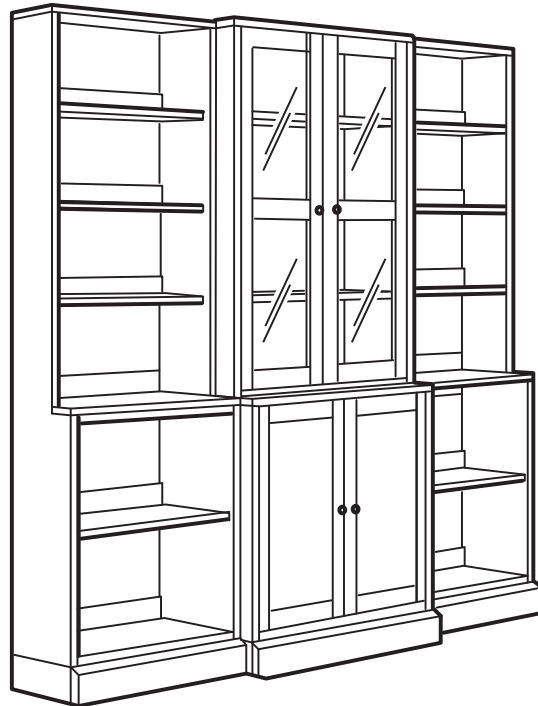

Safety

Secure It! Prevent tip-over injury. Furniture with included restraints must be secured to the wall according to the assembly instructions.

Different wall materials require different types of hardware. Use hardware (sold separately) suitable for the walls in your home.

When stacking modules to create combinations please follow the principle of deepest depth in the bottom, shallow depths on top.

For safety reasons, TONSTAD units are not to be hung on a wall.

Possibilities and flexibility

TONSTAD family gives you the flexibility to build storage solutions for different needs making the most of your space. The different units are combinable and stackable, allowing you to create storage combinations for all your belongings.

Flexibility

Choose standalones or go for one of the many combinations. Add units over time or rearrange the entire combination to adapt to your changing needs – regardless if it is your family or collection that grows.
